Mango wood has high variations because of spalting that is commonly present. Colors and cuttings can range from golden brown to yellow to pink to black. Each piece is unique which is part of the charm and beauty of this hardwood. Additionally, Marble is a natural stone product and is known for its variation in color, carbon deposits and veining patterns. Variations in shade and markings are normal and can be expected with the natural materials used in the construction of this product. Due to the porous nature of marble, it is vulnerable to staining agents and high heat.

Avoid placing hot or wet items on surface. Coasters recommended
Weight Capacity: 66 lbs

Ideal for use as a nightstand or side table in a bedroom, guestroom or living space

To clean, use a clean dry cloth and dust regularly. If spills occur, wipe spills with a damp cloth and dry immediately. No abrasives or household cleaners which can damage the wood. Drink coasters and placemats are recommended
