Finish: Grays

Brand: Hooker Furniture

Product Description: With a raised graphic pattern on its door fronts, mottled copper hardware and a soft grey Shale finish with natural wood undertones, the Beaumont Entertainment Console has a chic industrial vibe that fits in interiors from classic to modern to Bohemian. Accommodating an 80-inch TV, the entertainment center has one drawer and one adjustable shelf behind each pair of doors.

Collection Features: Beaumont is a curated group of one-of-a-kind pieces, inspired by American antiques and the concept of upcycling - the process of giving new life to vintage items with updates such as refinishing or repurposing them for new and unique uses. With roots in traditional design, the collection offers an exquisite and eclectic remix of old and new, combining the look of seasoned antiques and refurbished treasures with the conveniences of newly constructed furniture.

Additional Information: Beaumont Entertainment Console

One adjustable wood shelf behind each pair of doors

Ventilated back panel

Levelers

Material: Oak and Elm Veneers with Resin

Drawer Construction: Hooker Furniture offers full height, full depth and full width drawers for maximum storage capacity. All drawers have strong, time-tested English or French dovetail construction, for years of problem-free use. Plywood drawer bottoms are attached to plywood drawer sides for strength and durability. Metal side guides or wood on wood guide systems operate smoothly.

Finish Construction: Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
