STICKLEY

For the Martine Landscape Dresser, we've hand-fit a remarkable twelve side-hung, center-guided drawers in two sizes, faced with continuous-match veneers that allow the horizontal grain to flow uninterrupted from one to the next. A lined jewelry tray sits in the top-right drawer. Smooth curved posts and outward-sweeping saber legs give the dresser a mid-century buoyancy. And our beautiful, custom-designed pendant hardware, finished in Brushed Bronze and sized to fit the drawers, can be pulled easily from below or above.
