## Description

Wrap-around supple leather and a shallow seat depth make this the most comfortable swivel chair we've ever made. The padded back is specifically designed to snuggle you in softness and the Blend Down Coil cushion offers the perfect seat. If you are shorter in stature, you will truly appreciate the scale of this chair! Nail head trim is standard, but also available without nails. Also available as a swivel glider- style L040310BDSG.
