2	Metal Leg		8 PCS

FUNCTIONALITY INSTRUCTION

BEFORE USING THIS PRODUCT PLEASE READ, UNDERSTAND, AND FOLLOW THESE INSTRUCTIONS. Save these instructions for future reference.

FOR INDOOR USE ONLY

ITEM NO: I256-303 66" Executive Desk

STEP 1: Put the desk upside down on a soft surface.

STEP 2: Each metal leg will come with screw pre-installed with a 1/4" lag as shown below. Adjust as needed to ensure the 1/4" lag. Insert the screw on each metal leg into the buckle plate on the case and push it down to the suitable position. Attach the metal legs by using 8 bolts (A), lock washers (B) and flat washers (C). Use the allen wrench (D) to tighten the all bolts. If the leg is loose in the buckle plate, the leg should be removed and the screw adjusted as needed. Once legs are all secure, return the desk to the upright position.

STEP 3: Reverse each knob by removing the screws while each drawer is open and attach all knobs to the front of the drawers with screws as shown below.
