Description

The Cabott Swivel chair is a perfectly proportioned barrel back chair with interesting, vertical channel back detail on the inside seat back. The sloping shape and arm profile hit your elbows at just the right spot, and the dimensions and size of the chair are not oversized. The welt detail on the chair, allows it to work in many different design styles, it could be contemporary in a lush velvet fabric or it could be coastal in a navy fabric with white contrast welt. The sleek and clean lower front rail and frame go to the floor to cover the swivel mechanism. With its smart scale and size the Cabott Swivel chair is a versatile piece that would be a stylish addition to any space.
