

### Design

Most headphones don't fit children comfortably. The MDR-222KD headphones were designed with a child's head in mind. This allows the child to comfortably wear the headphones without strain that full sized headphones might cause as well as fit that eliminates the need to constantly adjust the headphones.

### Low volume

By increasing the impedance on the headphones we have taken into account the sensitive nature of children's ears to try to eliminate volume issues that full sized earphones might cause.

### Lightweight

By sizing these headphones correctly your child can use these headphones on long trips very comfortably.

### Specifications

#### Audio

Driver Unit	30mm
Frequency Response	14-20,000 Hz
Impedance	71 ohms at 1kHz
Sensitivity (db)	90 dB/mW

#### General

Design	Lightweight over-the-head Children's headphones
Magnet	Ferrite
Plug	Nickel-plated, L-shaped stereo mini plug (iPhone compatible)

#### Power

Power Handling Capacity	1,000mW (EIA)
-------------------------	---------------

#### Speaker

Diaphragm	PET
Type	Open air, Dynamic

#### Weights and Measurements

Cord Length (Approx.)	3.9 ft (1.2m)
Weight (Approx.)	1.8 oz. (52g) without cord
