

Whittier
Wood ®
FURNITURE

Real Wood. Real Quality.

"MY FATHER TAUGHT US,
IN ORDER TO MAKE FURNITURE
THAT LASTS— QUALITY AND
CRAFTSMANSHIP COME FIRST."

Scott Whittier

OUR HERITAGE

For three generations, our families have worked to preserve a passion for woodworking that began decades ago. Gordon Whittier envisioned a company committed to the highest standard of design for livability, quality and innovation. Our furniture is a testament to those values.

The Whittier family heritage of integrity, quality and delivering on promises endures. Each generation brings new perspective and strength to our business. The vision remains the same—craft timeless furniture made to last.

OUR PRODUCT

Every operation is conducted in-house, giving us complete control over all phases of development, manufacturing and quality. Crafted from sustainable American hardwoods, there is no MDF or particleboard ever used in our furniture.

Superior construction techniques such as dovetailed drawers, mortise and tenon joinery, wood doweling and more ensure the longevity of each piece we create. All of our hardware is premium grade to ensure years of use.

OUR MISSION

Continue building on our family's commitment to leadership in quality, service, sustainability and innovation while upholding the values that got us here.

SUSTAINABILITY A PERSPECTIVE ON REAL WOOD, REAL QUALITY

Our Alder furniture is certified to the PEFC™ Chain of Custody Standard. PEFC™ is the world's largest certification standard promoting sustainable forest management through independent third party certification.

Sustainability also results from our commitment to quality materials. Furniture that will have a place in your home for years to come is good for the environment and your family.

1975 After a successful career in the pine molding business, Gordon Whittier bought a struggling wood component manufacturing facility in Eugene, Oregon. Gordon hired Evert Slijper, his son-in-

law, a lumber broker, to help move Whittier Wood Products forward as a business. **1977** The company started producing Ready-to-Assemble (RTA), Ready-to-Finish (RTF) furniture kits, which Evert sold

to home centers, discount chains and a large number of unfinished furniture stores. **1980** Gordon's son, Scott, joined the company. Business grew steadily from 1977 to 2006 as it continued to add

new collections and furniture choices for its customers. **2006** Responding to a changing market, Whittier opened its own factory in Vietnam while expanding its assembly and finishing

capacity at the Eugene factory. These changes positioned Whittier for a strong future. **2007** A new Whittier Wood Furniture brand for a finished furniture product line was launched. The new products

were for traditional furniture stores and for the solid wood stores, which offer a mix of finished furniture and custom finished, solid wood furniture. **2017** Anna (Whittier) Tower, Scott's daughter, joined the

company demonstrating their continuing commitment to the family's guiding principles. **2020** The newest family member to join Whittier, Daniel Marshall, expands the involvement and participation

of the third generation. **2024** The future is bright as the Whittier family forges ahead with new plans, new furniture, and our traditions to build upon.

Pictured above: Evert Slijper, Scott Whittier, Anna Whittier Tower and Daniel Marshall.

WHITTIER COLLECTIONS ...TIMELESS QUALITY

Whittier Wood Furniture uses the highest quality materials in our furniture. We use sustainably sourced American hardwoods and authentic, quality fabrics that will last a lifetime in your home.

CATALINA COLLECTION UPHOLSTERED PANEL BEDS

Classic upholstered panel style with a modern, bouclé fabric is uniquely approachable and luxuriant at the same time. Storage bed drawers feature soft close access, giving a clean look to the design.

Nightstands feature dual port USB technology; two dressers include a velvet lined jewelry tray while another dresser and chest include a divided drawer. Beautiful form with lots of function.

- Made of American White Oak, White Oak Veneers and American Alder hardwoods.
- Cerused, Sand finish.
- Graphite finish drawer pulls.
- Full extension metal ball bearing drawer slides.
- Bed drawers feature soft close mechanism.
- English dovetail drawer construction.
- Mortise and tenon joinery for strength and stability.
- Dust bottom on all cases.
- Adjustable levelers.
- Chests and dressers include anti-tipping safety mechanism and tipping restraint to reduce the risk of tip-over.
- Products meet ASTM anti-tipping standards.

The ultimate in functional storage space, beauty and quality. The headboard features large cubbies; one accessorized with a built-in power strip with USB ports. The Queen features three cubbies while the King features four. As an added bonus, the hinged door opens to reveal a large concealed storage area, which has removable shelves to another storage opportunity below. Good for extra pillows, blankets or items to tuck away. The King headboard has a split design construction for easier delivery to homes with narrow hallways, stairs or elevators.

Enhance the bed with coordinating Bookcase Piers. Each pier is notch cut left or right neatly matching up with the headboard. Beds available in storage, rail and headboard only options. Headboard only option is compatible with most Hollywood bed frames (adapter required)

ADDISON COLLECTION PLATFORM BEDS

DUET

Two Addison beds are a platform of perfection: beautiful, solid American Alder and Black Walnut veneered hardwoods and splayed legs with superb engineering for strength and durability.

The Addison Adjustable Headboard Platform Bed features a mitered solid Alder frame surrounding Black Walnut veneer. The headboard height has 3-3/4" of adjustability, from 42-1/4"-46"H.

The Addison Black Walnut Adjustable Headboard Platform Bed uses Black Walnut veneer. The frameless look creates a floating headboard aesthetic. The headboard height has 3-3/4" of adjustability, from 39-3/8"-43-1/8"H.

- Made of sustainable American Alder and Black Walnut veneered hardwoods.
- Platform surround is 2-1/2"W x 2-1/4"H book matched solid Alder hardwood.
- Four steel channels connect the two platform halves. Metal bolt and insert nut attachment ensure strength and rigidity of the platform and aid in easy assembly.
- Headboard features four height adjustments and steel bracket attachments.
- Leg assemblies are strengthened with a four-sided steel box bolted to the platform. High-density wool felt glide insert protects flooring and eliminates wear. A fifth center leg ensures stability.
- Designed to hold up to 850 lbs.
- Products meet ASTM anti-tipping standards.

See the entire collection on pages 60-67

ADDI OCCASIONAL, ETC.

Beautiful mixed materials enhanced with a fluid, contemporary shape. Splayed legs are a signature element of this collection. The cleverly designed Low Cocktail End Table can nest with the Low Cocktail Table, generating harmony between pieces or separate them for a more traditional configuration.

The angled shape of the Sidekick Table looks modern and the foot fits under most sofas and chairs. The large surface can be a convenient workspace or occasional table.

Addi Occasional combines simplicity and beauty for today's modern settings.

- Made of sustainable American Alder and Black Walnut veneered hardwoods.
- Easy to assemble.

Flush Cut Molding Option

Available on Bookcases, Cabinets and Hutches.

Custom Cut Molding Options
 Custom crown cuts are available on all assembled bookcases, cabinets and hutches. This is ideal for making a run of bookcases with a finished crown molding look. Center wall units cannot be custom cut.
 Units can be ordered as follows:
FB = Flush cut both sides of crown.
FL = Flush cut on the left side only, as you are looking at the unit.
FR = Flush cut on the right side only, as you are looking at the unit.

MR (Top view miter cut)
 ML (Back view)

Corner Connector #1509 (shown in GAC)
 Footprint: 12"
 Connects two bookcases of the same height. Not compatible with Cabinets, Hutches or Center Wall Units.
 For corner configurations order:
MR = Miter cut right.
ML = Miter cut left.

QUALITY FEATURES & FURNITURE CARE

QUALITY FEATURES OF OUR FURNITURE

No matter the collection or category, our Whittier products include the same superior construction features and materials detailed below. Building furniture this way ensures years and years of enjoyment.

FEATURES

1. Certified sustainable solid American Alder tops, drawer sides and frames.
2. 1/4" Plywood drawer bottoms.
3. Mortise and tenon joinery add strength and stability.
4. Fluted dowels add strength and longevity.
5. 1/2" Plywood dust skirt.
6. 1/2" American Alder veneered side panels.
7. English dovetail drawer construction.
8. Whisper-quiet full extension metal ball bearing drawer slides.
9. Adjustable glides on bottom of legs.
10. Fitted 1/4" backs for structural strength.

PLUS our seven step pre-catalyzed finishes resist most liquids and heat for up to 24 hours.

FURNITURE CARE

Your Whittier Wood Furniture piece has been created so it will last for many years to come. Our construction methods are of the highest quality and we only use solid hardwood or veneered hardwood.

Wood can be susceptible to changing color over time when exposed to direct sunlight. Use window shades, drapes or blinds to protect your furniture. To help the surface age evenly and avoid dark and light spots, periodically move items to expose the entire surface to an even amount of light so it may develop a uniform patina.

Today's modern finishes require less effort to maintain than in years past. Our finishes resist most liquids and heat for up to 24 hours. Here are some simple tips to help maintain your furniture.

- Dust with a soft cloth slightly dampened with water. Wipe in the direction of the wood grain.
- Fingerprints and greasy smears can be removed with a solution of one part white vinegar to four parts water. If you would rather use a commercial product, Simple Green® will not damage the finish. A final wipe with clean water and a soft cloth is recommended.
- To prevent scratching, use felt discs under lamps or accessories that are placed on the furniture.
- If you choose to use glass on top of wood, use discs between the glass and the wood to allow air circulation.
- Please do not use cleaning products with ammonia or silicone bases.
- Use of waxes and polishes is not recommended because they can leave a residue that could dull the finish over time.

SAFETY FEATURES

TIPPING RESTRAINTS

Whittier Wood Furniture has developed a unique system that makes it very easy to anchor our furniture. A high strength polypropylene strap is attached at the base of designated furniture. The other end anchors below the baseboard.

FEATURES

1. No holes in the wall. Easily attaches with two screws to the bottom plate of the wall or sub-floor sheathing.
2. High strength polypropylene strap already attached to the furniture.

ANTI-TIPPING DRAWER INTERLOCK SAFETY MECHANISM

Chests and dressers allow only one lower drawer or one lower drawer per vertical bank of drawers to be opened at once. This safety feature reduces the risk of tip-over.

GUIDELINES & SAFETY TIPS

- **ALWAYS** install anti-tip device provided.
- **NEVER** allow children to climb or hang on drawers, doors or shelves.
- **NEVER** open more than one drawer at a time.
- **DO NOT** defeat or remove the drawer interlock system; it is an important stability and safety system.
- **PLACE** heaviest items in bottom drawers.
- **DO NOT** set TVs or other heavy objects on top of your furniture unless specifically designed for them.
- Refer to the TV manufacturer's user guide for instructions to secure television.
- Anchor the furniture and the TV on top of it. Push the TV as far back as possible.
- Keep remote controls, toys and other items that may be attractive to children off the TV stands and furniture.
- Keep TV and/or cable cords out of reach of children.
- Supervise children in rooms where these safety tips have not been followed.

SAFETY FIRST! ANCHOR IT!

ASTM COMPLIANCE

All Whittier chests and dressers are designed to comply with the ASTM anti-tipping standards. ASTM International is one of the world's largest organizations that develop voluntary standards. Government regulators often give these standards the force of law by citing them in laws, regulations and codes.
