THANK YOU FOR MAKING GE APPLIANCES A PART OF YOUR HOME.

Whether you grew up with GE Appliances, or this is your first, we're happy to have you in the family.

We take pride in the craftsmanship, innovation and design that goes into every GE Appliances product, and we think you will too. Among other things, registration of your appliance ensures that we can deliver important product information and warranty details when you need them.

Register your GE appliance now online. Helpful websites and phone numbers are available in the Consumer Support section of this Owner's Manual. You may also mail in the pre-printed registration card included in the packing material.

IMPORTANT SAFETY INFORMATION

READ ALL INSTRUCTIONS BEFORE USING THE APPLIANCE

▲WARNING For your safety, the information in this manual must be followed to minimize the risk of fire, explosion, electric shock, and to prevent property damage, personal injury, or death.

▲WARNING WHEN USING YOUR ELECTRICAL APPLIANCES, BASIC SAFETY PRECAUTIONS SHOULD BE FOLLOWED, INCLUDING THE FOLLOWING:

- Use this appliance only for its intended purpose as described in this Owner's Manual.
- Read all the instructions before using the appliance.
- To reduce the risk of injury, close supervision is required when a disposer is used near children.
- Do not put fingers or hands into a waste disposer.
- Turn the power switch to the OFF position before attempting to clear a jam or remove an object from the disposer.
- When attempting to loosen a jam in a waste disposer, use a long wooden object such as a wooden spoon or the wooden handle of a broom or mop.
- When attempting to remove objects from a waste disposer, use long-handled tongs or pliers. If the disposer is magnetically actuated, use only nonmagnetic tools.
- To reduce the risk of injury by materials that may be expelled by a waste disposer, do not put the following into a disposer:
 - a. Clam or oyster shells
 - b. Caustic drain cleaners or similar products
 - c. Glass, china or plastic
 - d. Large whole bones
 - e. Metal, such as bottle caps, tin cans, utensils or aluminum foil
 - f. Hot grease or other hot liquids
 - g. Whole corn husks
- When not operating a disposer, leave the drain stopper in place to reduce the risk of objects falling into the disposer.
- For proper grounding instructions, see the **CONNECTING ELECTRICITY** portion of this manual.

CONNECTING ELECTRICITY

If you are not familiar with electrical power and procedures, call a qualified electrician.

▲WARNING Improper connection of the equipment-grounding conductor can result in a risk of electric shock. Check with a qualified electrician or serviceman if you are in doubt as to whether the appliance is properly grounded. Do not modify the plug provided with the appliance if it will not fit the outlet; have a proper outlet installed by a qualified electrician.

For Models Equipped with a Grounded Cord:

GROUNDING INSTRUCTIONS: This disposer must be grounded to reduce the risk of electric shock in the event of a malfunction or breakdown. Grounding provides a path of least resistance for electric current. This disposer is equipped with a cord having an equipment-grounding conductor and a grounding plug. The plug must be plugged into an outlet that is properly installed and grounded in accordance with all local codes and ordinances.

CONSIGNES DE SÉCURITÉ IMPORTANTES

LIRE TOUTES LES CONSIGNES AVANT D'UTILISER L'APPAREIL

▲ AVERTISSEMENT Pour votre sécurité, veuillez suivre les directives données dans le présent manuel afin de réduire au minimum les risques d'incendie, d'explosion et de chocs électriques et prévenir tout dommage et blessure grave ou mortelle.

▲ AVERTISSEMENT LORS DE L'UTILISATION D'APPAREILS ÉLECTRIQUES, RESPECTEZ LES PRÉCAUTIONS ÉLÉMENTAIRES DE SÉCURITÉ, NOTAMMENT :

- N'utilisez cet appareil que dans le but décrit par le présent guide d'utilisation.
- Lisez l'ensemble des instructions avant d'utiliser l'appareil.
- Afin de réduire le risque de blessure, une surveillance étroite est requise lorsque le broyeur est utilisé à proximité d'enfants.
- Ne placez pas les doigts ou les mains dans le broyeur de déchets.
- Éteignez l'appareil avant de tenter de déboucher le broyeur ou d'en retirer un objet.
- Lorsque vous tentez de déboucher le broyeur de déchets, utilisez un objet long et en bois, comme une cuillère en bois ou un manche à balai en bois.
- Pour tenter de retirer des objets du broyeur de déchets, utilisez de longues pinces. Si le broyeur est magnétisé, utilisez des outils amagnétiques.
- Pour réduire les risques de blessure provoquée par l'expulsion de matériaux du broyeur de déchets, ne jetez pas les déchets suivants dans le broyeur :
 - a. coquilles d'huîtres ou de myes;
 - b. produits de débouchage caustiques ou similaires;
 - c. verre, porcelaine ou plastique;
 - d. gros os entiers;
 - e. métal, par exemple : boîtes de conserve, canettes, ustensiles ou papier aluminium;
 - f. huile chaude ou autres liquides chauds;
 - g. épis de maïs entiers.
- Lorsque vous n'utilisez pas le broyeur, laissez le bouchon du drain en place pour éviter d'y faire tomber des objets.
- Consultez les instructions détaillées de mise à la terre à la section **BRANCHEMENTS ÉLECTRIQUES** du présent guide.

BRANCHEMENTS ÉLECTRIQUES

Si vous n'êtes pas à l'aise avec les procédures et connexions électriques, faites appel à un électricien qualifié.

▲ AVERTISSEMENT Une connexion erronée du connecteur de mise à la terre de l'appareil peut entraîner des risques d'électrocution. Consultez un électricien qualifié en cas de doute sur la mise à la terre de l'appareil. N'altérez pas la prise fournie avec l'appareil si elle ne correspond pas à la prise murale. Le cas échéant, faites installer une prise murale adaptée par un électricien qualifié.

Pour les modèles équipés d'un câble de mise à la terre :

INSTRUCTIONS DE MISE À LA TERRE : Ce broyeur de déchets doit être mis à la terre afin de réduire le risque de décharge électrique dans l'éventualité d'une défectuosité ou d'une panne. La mise à la terre procure un trajet de moindre résistance pour le courant électrique. Ce broyeur est équipé d'un cordon doté d'un conducteur de terre et d'une fiche de terre. La fiche doit être branchée dans une prise correctement installée et mise à la terre en conformité avec les codes et règlements locaux.

INFORMACIÓN IMPORTANTE DE SEGURIDAD

LEA TODAS LAS INSTRUCCIONES ANTES DE USAR

⚠ ADVERTENCIA

Para su seguridad, siga las instrucciones de este manual a fin de minimizar riesgos de incendio, explosión, descargas eléctricas, y para evitar daños en su propiedad, lesiones personales o la muerte.

⚠ ADVERTENCIA

AL USAR SUS ELECTRODOMÉSTICOS, SE DEBERÁN SEGUIR PRECAUCIONES BÁSICAS DE SEGURIDAD, INCLUYENDO LO SIGUIENTE:

- Use este electrodoméstico sólo para su propósito original, como se describe en el Manual del Propietario.
- Lea todas las instrucciones antes de usar este electrodoméstico.
- A fin de reducir el riesgo de lesiones, será necesaria una supervisión de cerca cuando se utilice un triturador cerca de los niños.
- No coloque los dedos ni las manos en un triturador de desperdicios.
- Coloque el interruptor de corriente en la posición OFF (Apagado) antes de intentar despejar un atasco o de retirar un objeto del triturador.
- Al intentar aflojar un atasco en un triturador de desperdicios, utilice un objeto largo de madera tal como una cuchara de madera o la manija de madera de una escoba o mopa.
- Al intentar retirar objetos del triturador de desperdicios, use pinzas o tenazas con manijas largas. Si el triturador es accionado de forma magnética, use herramientas no magnéticas únicamente.
- A fin de reducir el riesgo de lesiones causadas por materiales que puedan ser expulsados por un triturador de desperdicios, no coloque lo siguiente en un triturador:
 - a. Valvas de almejas u ostras
 - b. Limpiadores de drenaje cáusticos o productos similares
 - c. Vidrio, porcelana o plástico
 - d. Huesos grandes enteros
 - e. Metales, tales como tapas de botellas, latas, utensilios o papel de aluminio
 - f. Grasa caliente u otros líquidos calientes
 - g. Hojas de maíz enteras
- Cuando no utilice un triturador, deje el tapón de drenaje en su posición y reduzca el riesgo de que los objetos caigan en el triturador.
- Para acceder a instrucciones para una conexión a tierra adecuada, consulte la sección de **CONEXIÓN DE LA ELECTRICIDAD** de este manual.

CONEXIÓN DE LA ELECTRICIDAD

Si no está familiarizado con la corriente eléctrica y sus procedimientos, comuníquese con un electricista calificado.

⚠ ADVERTENCIA

Una conexión inadecuada del conductor de conexión a tierra del equipo podrá producir riesgos de descargas eléctricas. Si tiene dudas de que el electrodoméstico se encuentre conectado a tierra apropiadamente, consulte a un electricista calificado o a personal del servicio. No modifique el enchufe provisto con el electrodoméstico si éste no coincide con el tomacorriente; solicite la instalación de un tomacorriente apropiado a un electricista calificado.

Para los Modelos Equipados con Cable a Tierra:

INSTRUCCIONES DE CONEXIÓN A TIERRA: Este triturador deberá ser conectado a tierra a fin de reducir el riesgo de descargas eléctricas en caso de una falla de funcionamiento o avería. La conexión a tierra brinda un camino de menor resistencia para la corriente eléctrica. Este triturador está equipado con un cable con un conductor para la conexión a tierra del equipo y un enchufe con conexión a tierra. El enchufe deberá estar conectado a un tomacorriente instalado en forma adecuada y con conexión a tierra de acuerdo con todos los códigos y ordenanzas locales.

LEA Y GUARDE ESTAS INSTRUCCIONES

Using the Disposer / Care and Cleaning

READ ALL SAFETY INSTRUCTIONS BEFORE USING THIS DISPOSER.

This disposer uses anti-jam swivel impellers that make a clicking sound as they swing into place. This indicates normal operation.

- A. Remove the sink stopper and turn on a medium flow of cold water.
- B. Turn the switch to ON.
- C. Scrape in food waste. To speed up food waste disposal, cut or break up large bones, rinds and cobs. Large bones and fibrous husks require considerable grinding time and are more easily thrown away with other trash. Do not be alarmed that the disposer slows down while grinding. The disposer is actually increasing torque (grinding power) and is operating under normal conditions.
- D. Before turning the disposer off, let the water and the disposer run for approximately 25 seconds after shredding stops. This assures that all waste is thoroughly flushed through the trap and drain.
- E. Do not use hot water while running the disposer. Cold water will keep food waste and fats solid so they can be flushed down the drain.

Helpful Hints

- A. Be sure the disposer is empty before using the dishwasher so it can drain properly.
- B. You may want to leave the stopper in the drain when not in use to prevent utensils and foreign objects from falling into the disposer.
- C. The disposer is ruggedly built to give you years and years of trouble-free service. It will handle all normal food wastes - BUT it will not grind and dispose such items as tin cans, bottles and bottle caps, glass, china, leather, cloth, crockery, rubber, string, feathers, or clam or oyster shells. These are waste materials and belong in the trash can or trash compactor.
- D. TO SPEED UP FOOD WASTE DISPOSAL: Cut or break up large bones, melon rinds, grapefruit skins and corn cobs. Items such as large bones, fibrous husks like lima bean pods and corn husks, require considerable cutting time. For this reason, you may prefer to place them in the trash can or trash compactor.

Care and Cleaning

THE MOTOR IS PERMANENTLY LUBRICATED FOR LIFE. DO NOT ATTEMPT TO LUBRICATE YOUR DISPOSER. The disposer is self cleaning and scours itself with each use.

- NEVER put lye or chemical cleaners into the disposer, as they cause serious corrosion of metal parts.
- Your disposer, is equipped with a removable splash guard for ease of cleaning or replacement. Remove the splash guard by pulling it out from the top. To replace, insert into the sink flange and push down until it is properly seated.
- If an odor develops, run orange or lemon rinds through the disposer. A dozen ice cubes sprinkled with a little household scouring powder will also work.

Installation Instructions

Disposer

BEFORE YOU BEGIN

Read these instructions completely and carefully.

FOR YOUR SAFETY

Read and observe all **WARNINGS** and **CAUTIONS** shown throughout these instructions.

While performing installations described in this booklet, gloves and safety glasses or goggles should be worn.

IMPORTANT – Observe all governing codes and ordinances.

- Save these instructions for local inspector's use.
- **Note to Installer** – Be sure to leave these instructions with the consumer.
- **Note to Consumer** – Keep these instructions for future reference.
- **Skill level** – Installation of this appliance requires basic mechanical skills.
- Proper installation is the responsibility of the installer.

AVANT DE COMMENCER

Lisez attentivement ces instructions, dans leur intégralité.

POUR VOTRE SÉCURITÉ

Veillez lire et observer toutes les mises en garde **AVERTISSEMENT** et **ATTENTION** données dans les présentes directives.

Pour effectuer l'installation décrite dans les présentes directives, il faut porter des et gants ou des lunettes de sécurité.

IMPORTANT – Respectez toutes les normes et réglementations en vigueur.

- Conservez les présentes instructions à l'attention de l'inspecteur local.
- **Remarque à l'installateur** : Assurez-vous de fournir les présentes instructions à l'utilisateur.
- **Remarque à l'utilisateur** : Conservez les présentes instructions pour pouvoir vous y reporter ultérieurement.
- **Niveau de compétence** : L'installation de cet appareil requiert des compétences mécaniques de base.
- La conformité de l'installation relève de la responsabilité de l'installateur.

ANTES DE EMPEZAR

Lea estas instrucciones completa y cuidadosamente.

PARA SU SEGURIDAD

Lea y cumpla con todas las **ADVERTENCIAS** y **PRECAUCIONES** que figuran en estas instrucciones.

Al realizar las instalaciones descritas en este manual, se deberán usar guantes y anteojos o gafas de seguridad.

IMPORTANT – Observe todos los códigos y órdenes de ley.

- Guarde estas instrucciones para uso del inspector local.
- **Nota al instalador** – Asegúrese de dejar estas instrucciones con el consumidor.
- **Nota al consumidor** – Conserve estas instrucciones para referencia futura.
- **Nivel de destreza** – La instalación de este aparato requiere de destrezas mecánicas básicas.
- La instalación apropiada es la responsabilidad del instalador.
- La falla del producto debido a una instalación inadecuada no está cubierta por la garantía.

⚠ WARNING

- **FOR PERSONAL SAFETY**: Remove house fuse or open circuit breaker before beginning installation. Do not use an extension cord or adapter plug with this appliance.
- **FOR PERSONAL SAFETY**: Do not position your head or body under disposer; unit could fall during removal or installation.
- The improper connection of the equipment grounding conductor can result in a risk of electric shock. Check with a qualified electrician or service representative if you are in doubt that the appliance is properly grounded.
- If house wiring is not 2-wire with ground, a ground must be provided by the installer. When house wiring is aluminum, be sure to use UL-Listed anti-oxidant compound and aluminum-to-copper connectors.

- Product failure due to improper installation is not covered under the Warranty.

⚠ AVERTISSEMENT

- **POUR VOTRE SÉCURITÉ PERSONNELLE**: Enlevez le fusible ou déclenchez le disjoncteur au panneau de distribution principal avant de commencer l'installation. N'utilisez pas une rallonge électrique ou un adaptateur de fiche avec cet appareil.
- **POUR VOTRE SÉCURITÉ PERSONNELLE** : Ne placez pas votre tête ou votre corps en dessous du broyeur; celui-ci pourrait tomber pendant son retrait ou son installation.
- Un branchement inadéquat du conducteur de mise à la terre peut présenter des risques de choc électrique. Si vous n'êtes pas certain que l'appareil est correctement mis à la terre, consultez un réparateur ou un électricien qualifié.
- Si le câblage électrique de la résidence n'est pas constitué de deux fils plus un fil de mise à la terre, l'installateur doit installer un fil de mise à la terre. Si le câblage électrique de la résidence est en aluminium, utilisez un agent antioxydant et des connecteurs pour raccords «aluminium-cuivre» homologués UL.

- Les défaillances du produit provoquées par une installation incorrecte ne sont pas couvertes par la garantie.

⚠ ADVERTENCIA

- **PARA SEGURIDAD PERSONAL**: Quite el fusible o abra el interruptor de circuitos antes de comenzar la instalación. No utilice un cable de extensión o un enchufe adaptador con este artefacto.
- **PARA SU SEGURIDAD**: No posicione su cabeza o su cuerpo debajo del triturador; la unidad podrá caer durante el retiro o la instalación.
- La conexión inadecuada del conductor de conexión a tierra del equipamiento puede provocar un riesgo de descarga eléctrica. Consulte a un electricista calificado o representante de servicio técnico si tiene dudas sobre la correcta conexión a tierra del aparato.
- Si el cableado doméstico no cuenta con un cable de 2 hilos con conexión a tierra, un instalador debe realizar una conexión a tierra. Cuando el cableado doméstico es de aluminio, asegúrese de usar un compuesto antioxidante y conectores de aluminio a cobre aprobados por UL.

Installation Instructions

DIMENSIONS

SOME TYPICAL INSTALLATIONS

*It is essential for the proper operation of the disposer that this dimension be 9"-12" to avoid standing water in disposer motor housing.

**Flexible drain pipe may be necessary for this application.

WHAT YOU WILL NEED

- Phillips and flat blade screwdrivers

- Channel lock pliers, slip joint

- Hacksaw

- Flashlight

- Hammer

- Nut Driver

- Tape Measure

- Liquid soap (or petroleum jelly)

- Putty Knife

- Plumbers Putty

- Safety Glasses

- Gloves

Only needed if connecting to a dishwasher:

- Hose clamp(s)

- Flexible Drain Hose

- Wooden dowel or steel punch

Installation Instructions

COMPONENTS

Sink Flange Assembly

PREPARATION

1. Disconnect electrical power supply to disposer.
2. Remove old disposer or sink flange assembly.
3. Inspect drain line. If it is heavily coated with hardened grease and accumulations, rout out with a plumber's snake.
4. Remove old sealing materials and gasketing from sink opening, both top and bottom.

NOTE: Top and bottom of sink surfaces must be clean, dry and free of any residue to prevent leaks.

DISASSEMBLE TO INSTALL

1. Turn the lower mounting ring clockwise until it releases and lift the entire hardware assembly from the disposer.

2. Loosen the three screws from the upper mounting ring and slide it toward the support flange.

3. Insert a flat blade screwdriver under the snap ring and remove it.
4. Separate the upper mounting ring and support flange from the sink flange.

Installation Instructions

INSTALL THE SINK FLANGE

1. Roll plumbers putty in a 3/8" thick rope, turn the sink flange up-side-down and apply around the bottom of the flange.

2. Install the sink flange into the sink opening by pressing it in firmly and removing excess plumbers putty.

3. Place a towel over the sink bottom and flange, and weight the flange down to hold it in place while you add the other mounting components.

INSTALL THE UNDER SINK MOUNTING HARDWARE

1. Assemble together the fiber gasket, support flange and upper mounting ring onto the lower sink flange.

Secure the assembly in place on the sink flange by inserting the snap ring into the sink flange snap groove.

IMPORTANT: Make sure the snap ring is secured into place in the snap groove. If the snap ring is not secured in the snap groove, trapping the assembled parts in place, then the disposer cannot be properly installed.

Installation Instructions

INSTALL THE UNDER SINK MOUNTING HARDWARE (CONT.)

2. Tighten the three upper mounting ring screws into the support flange.

IF CONNECTING TO A DISHWASHER (CONT.)

2. Connect the flexible drain hose to the dishwasher discharge using a hose clamp. If the hose size is different, you will need a stepped rubber adapter.

See the Installation Instructions that came with your dishwasher for details.

IF CONNECTING TO A DISHWASHER

If you are connecting to a dishwasher, complete this step. If a dishwasher is not to be connected, skip to **ATTACH THE DISCHARGE ELBOW** section and continue.

1. Set the disposer on the floor. Place it on its side on a protected surface. Use a blunt instrument (steel punch or wooden dowel), to knock out the entire dishwasher discharge plug. Do not use a screwdriver or sharp instrument. When knockout plug falls into disposer, you may remove it or simply grind it up when the disposer is used. This will not damage the disposer in any way, but may take some time to grind, over the course of several uses.

ATTACH THE DISCHARGE ELBOW

- Slide the discharge flange and then the discharge gasket onto the discharge elbow. Insert the discharge elbow and gasket into the disposer discharge outlet and attach the flange assembly to the disposer with the two screws.

NOTE: Some installations may require a straight pipe or flexible drain pipe connection. Consult a licensed plumber as needed.

Installation Instructions

MOUNT THE DISPOSER

IMPORTANT: Before performing this step, read it completely to understand how the disposer is mounted.

1. Apply a small amount of liquid soap (or petroleum jelly) onto the bottom of the cushion mount and to the bottom of the the lower mounting ring to aid its sliding and rotation onto the upper mounting ring.

2. Seat the cushion mount onto the top ring of the disposer.

MOUNT THE DISPOSER (CONT.)

3. Lift and prop the disposer into place on the upper mounting ring. Mount it by turning the lower mounting ring until its tabs engage onto the slide ramps of the upper mounting ring.

Insert a screwdriver into a lower hook and leverage it counterclockwise into place.

Use channel lock pliers to fully lock the lower mounting ring tabs onto the upper slide ramps.

Shown fully locked:

Installation Instructions

CONNECT PLUMBING

1. Turn the disposer until the disposer discharge elbow lines up with the outlet drain pipe.

2. Securely connect all plumbing, including the drain pipe and the dishwasher drain (if used), observing all codes and ordinances.

INSTALL SPLASH GUARD AND STOPPER

- Press the splash guard into place in the sink flange. Insert the stopper over the splash guard.

NOTE: Both the splash guard and stopper may be removed and cleaned as needed.

CONNECT POWER AND TEST FOR LEAKS

- Plug the disposer into an outlet that is properly installed and grounded in accordance with all local codes and ordinances.
- Run water to check the disposer for leaks 24 hours after installation and first operation.
- Keep and refer to this Owner's Manual for proper use and care of this disposer.

Troubleshooting Tips... Before you call for service

SAFETY NOTE: Before investigating, you must disconnect the power supply.

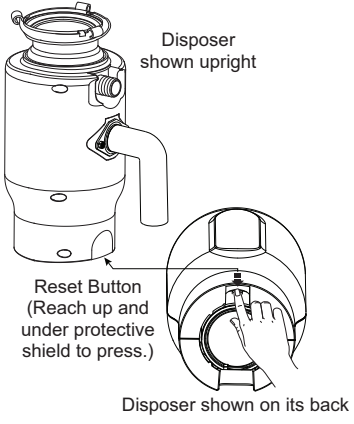

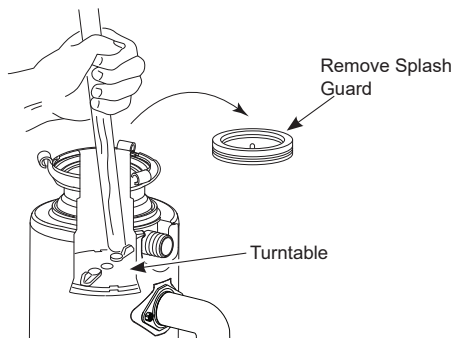

⚠ WARNING Before resetting, disconnect the power supply—please see SAFETY NOTE above. The overload control prevents the motor from operating should overloading occur. This feature protects your house wiring and your disposer. When overloaded, the motor will stop automatically.

REMARQUE RELATIVE À LA SÉCURITÉ : Avant de manipuler le broyeur pour rechercher une panne, débranchez toujours l'alimentation.

⚠ AVERTISSEMENT Avant la réinitialisation, débranchez l'alimentation. Voir la REMARQUE RELATIVE À LA SÉCURITÉ ci-dessus. Le contrôle de surcharge protège le moteur des opérations impliquant une surcharge. Cette fonctionnalité protège à la fois votre installation électrique et votre broyeur. En cas de surcharge, le moteur s'arrête automatiquement.

NOTA SOBRE SEGURIDAD: Antes de investigar, usted deberá desconectar el suministro de corriente.

⚠ ADVERTENCIA Antes de realizar la reconfiguración, desconecte el suministro de corriente – por favor consulte la NOTA SOBRE SEGURIDAD anterior. El control de sobrecarga evita que el motor funcione en caso de sobrecarga. Esta función protege el cableado de su hogar y su triturador. Cuando se encuentre sobrecargado, el motor se detendrá automáticamente.

Problem	Possible Cause	What To Do
Loud noises (other than those during grinding of bones and fruit pits)	Silverware, bottle cap or other foreign object has fallen into the disposer	Remove the splash guard and remove the object with long-handled tongs. Replace the splash guard.
Disposer does not start	Reset button has been tripped  Disposer shown upright Reset Button (Reach up and under protective shield to press.) Disposer shown on its back	With the splash guard removed, check to see if the turntable will move freely using a broom handle. If the turntable moves freely, replace the splash guard and check the reset button to see if it has been tripped. The reset button is red, located opposite the discharge elbow, near the bottom of the disposer behind its protective shield. Reach up and under the protective shield and push the button in until it clicks and remains depressed. If the reset button has not been tripped, check for a shorted or broken wire connecting to the disposer. Check the electrical power switch, fuse box or circuit breaker. If wiring and electrical components are intact, the unit may have internal problems that require service or replacement.
	Turntable cannot rotate.  Remove Splash Guard Turntable	If the turntable does not turn freely, check for an object lodged between the turntable and the grind ring. Dislodge the object by moving the turntable with a broom handle. Then remove the object. If no foreign object is present, there may be internal problems.
Disposer leaks	If the leak is at the top, it may be caused by: 1. Improper seating of sink flange (gasket choice, putty, or tightening). 2. Support ring not tightened properly. 3. Defective cushion mount. If the leak is at the discharge elbow, leak may be caused by improper tightening of elbow flange screws.
