MAT20 Top-Load Washer

WHAT'S INSIDE MATTERS®

SERVICE MADE EASY

Engineered to minimize downtime and streamline maintenance, with easy accessibility and diagnostics to help keep a machine running at peak performance.

1 HEAVY-DUTY, REMOVABLE FRONT PANEL

Built from extra-strength galvanized steel, the heavy-duty front panel is robust and easy to remove for streamlined maintenance and minimized downtime. Mounting clips and a support bracket make removal and replacement fast.

2 EASY-ACCESS STEEL BASE

The base provides a sturdy structure to help anchor the machine solidly to the ground, while providing easy access to the motor, drive system, and pump.

3 EASY-TO-REMOVE CONSOLE

The console yields quick access to the control panel with the removal of just two screws.

4 EASY-TO-USE DIAGNOSTICS

A feature of the Intelligent Controls with M-Series Technology, these diagnostic capabilities help quickly identify the problem, locate it, and get the machine back into service.

5 ADJUSTABLE FEET

Engineered to support a heavy cabinet, four adjustable feet make installation quick and easy—regardless of bumps or uneven areas in the floor.
