Number of Shelves: 4

Style: Transitional

Finish: Dark Wood

Brand: Pulaski Furniture

Product Description: Your collections are a source of pride, accomplishment, and fond memories - give them the spotlight they deserve with this beautiful locking curio cabinet. Four glass shelves can be adjusted into nearly any configuration with top-to-bottom position holes, giving you customized display options. A sliding front door allows access from either the right or left side, and an integrated lock on the right side keeps your valuables safe. A beveled glass front and two-setting halogen top-mounted lights provide an attractive, uncluttered view of your items. This curio cabinet is finished with glass sides and a fully mirrored back that allows you to see your items on display from every angle. An elegant cherry finish on the cabinet's attractive veneers goes with any decor theme for easy style matching.

Collection Features: With over 60 years of furnishing homes across America, Pulaski Furniture continues its heritage of outstanding value, quality and design. We invite you to explore our accents and display cabinet collection and find the perfect piece to make a statement or complete your vision for any area of your home.

Specifications: Shelves measure 38W x 11.5D x 0.25H

Status: Active

Finish: Warm mid-tone wood veneers highlight the subtle textural details in top and bottom molding

Features: One door

Four shelves

Plate grooves on shelves 1.5-inches from the back

Lock on right side

Felt-lined door prevents dust from entering interior of cabinet

Material: Hardwoods, Glass

Frame Construction: Pulaski uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat

and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
