

# Sound Shield Compact

## Compact, folding vocal reflection baffle

### Key Features:

- Lightweight, foldable design for easy transport
- Professional acoustic foam to reject ambient sound
- High-quality metal design
- Perfect for studio or field use
- Mounts to microphone stand

### Overview:

Sound Shield Compact is a professional vocal reflection filter designed to mount to a microphone stand. It features two folding metal panels that make it easily transportable. The high-quality foam reduces ambient sound resulting in cleaner recordings in the studio or the field.
