Product Description: In storybook style, the romantic, softly-shaped Rhapsody Curio exudes casual opulence and classic European design pedigree. The laid-back luxury of the walnut-colored finish inspired by rustic reclaimed wood in beautiful patinas updates the curio for today's casual lifestyles. Behind two seeded glass doors are two top adjustable and wood-framed glass shelves with plate grooves. The center shelf is fixed, and the bottom two shelves are adjustable. Use this lovely curio alone, or bunched in twos or threes.

Collection Features: The groundbreaking Rhapsody Collection brings together classic design elements, grand scale, and a relaxed rustic finish to create an impassioned marriage of casual opulence. Exuberant scale and serpentine shapes infuse the pieces with emotion, while timeless motifs like scrolls, rope twist molding, the acanthus leaf and fleur de lis anchor Rhapsody in old world charm. Building on the grand scale and classic European design is the defining element of the collection: a walnut-colored finish inspired by the natural yet rustic nature of reclaimed woods in beautiful patinas.

Status: Active

Finish: Walnut Colored Rustic Finish. Distressing includes scraping lines, sloping lines, rasping and worm holes.

Features: Two wood-framed seeded glass doors
Touch light

Top two shelves are adjustable wood-framed glass with plate grooves
Center fixed shelf
Bottom two shelves are adjustable

Material: Pecan Veneers, Metal, Seeded Glass and Resin

Finish Construction: Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
