Retail Packaging Depth: 6"
Volume: 1.7 Cu. Ft.

Use and Care

Care Instructions: Ensure you have the correct size filter for your central furnace unit or your wall or ceiling air returns. Remove cover and old air filter. Remove plastic bag from new air filter, ensure you do not damage cardboard frame. Write installation date on the filter frame in designated spot. Locate the arrows and point in toward the heating and A/C unit. Replace cover and lock in place. Dispose of old air filter properly. For optimum performance replace filter every 3 months or as needed.
