

KINCAID

ITEM # 706-857C

ROCKLAND BUFFET

The Rockland Buffet takes all of the textural elements of Plank Road and blends them together. We particularly love how the seeded glass works with the uneven planking on the top and ends of the solid wood cabinet. There are also a few functional features that add to the piece such as adjustable shelves behind the doors, soft-close drawer glides, and a silverware tray fitted into the right drawer.

- Four doors; two drawers
- Two adjustable wood shelves
- Center foot
- Silverware tray in right drawer
- Flat pad in left drawer
- New Zealand Pine

Solid Wood - Made using genuine solid wood construction
