

## OVERHEAD MOUNTING OF THE SVS PRIME ELEVATION WITH THE CEILING MOUNT KIT

The SVS Prime Elevation speaker can be installed on the ceiling with the Multi-Angle Wall Bracket (patent pending) and secured safely in place with the Ceiling Mount Kit.

When mounting the SVS Prime Elevation, be sure to follow the same safety guidelines for regular wall mounting provided in the product manual.

*Note: Always install the Multi-Angle Wall Bracket with two or more screws into a stud or ceiling joist to ensure secure and stable mounting.*

**1** With Prime Elevation mounted to the ceiling with the Multi-Angle Wall Bracket, align the Ceiling Mount Kit with the space between the bracket and ceiling.

**2** Slide the Ceiling Mount Kit into place until the lip meets the edge of the Prime Elevation Multi-Angle Wall Bracket.

*Note: If you have any questions about the correct hardware for mounting the Multi-Angle Wall Bracket (patent pending), please contact our SVS Sound Experts*
