MOE'S

Cedric Pendant Lamp White

Because ceilings deserve better. Cedric takes lighting out of the background. Two curved arms cross with just enough flair, each ending in a glowing opal globe that keeps things soft and sculptural. The shape feels in motion—even when standing still—giving your ceiling something to brag about, because why settle for subtle?

- Waves of Light: Four globes gracefully suspended from two crossed, wave-like steel arms effortlessly capture the eye with this fluid, sculptural silhouette.
