KLIPSCH TAKES LEGENDARY AMERICAN SOUND OUTSIDE WITH NEW FULL-RANGE LANDSCAPE SPEAKER SYSTEM

Klipsch®, a leading tech-driven audio company, takes its legendary American sound outside with the introduction of a new full-range landscape speaker system. Bringing a modern take on traditional 70 V distributed models, the new Klipsch Courtyard landscape speaker system is ready to tackle the elements delivering year-round outdoor sound with powerful, precision-engineered audio backed by nearly 80 years of acoustic expertise. The convenient single box solution provides a 4.1 system with everything needed for the perfect patio party, including four horn-loaded satellite speakers, a low-profile subwoofer, mounting hardware, and accessories. Expansion for larger spaces is simple with Courtyard's optional two-pack of satellites, or easily integrate a second system to create the ultimate 8.2 outdoor system.

Each Courtyard satellite speaker brings Klipsch's signature horn-loaded performance using the same Tractrix® horn technology and design principles of Klipsch's premium loud-speaker lines. The 4" woofer and 1" tweeter are housed in a tilting head assembly with a locking mechanism, while round, detachable stakes allow simple adjustments for optimal ground based positioning. It's easy to get the music playing with simple connection through zone 2 of an AVR, streaming amplifier, or for a premium experience, Integra's new amplifiers (need product link), to bring dynamic, powerful, detailed sound to any outdoor living space with ease.

The Klipsch Courtyard's low-profile, 10" subwoofer, designed for partial burial or above-ground placement, delivers the bass essential for premium outdoor entertainment. With included stake mounts and rotatable anchors, the Courtyard sub fits naturally into challenging spaces. A cable-management alcove on the bottom panel, keeps wires concealed, to ensure, a clean installation that will complement any backyard aesthetic.

Built for seamless integration and durability for demanding outdoor environments, the Courtyard satellite speakers and subwoofer are finished in a colorfast brown matte. Ready to withstand elements, the system's IXP7-rating easily handles exposure to rain and snow, high pressure water jets, and direct sunlight, to offer a long-lasting audio experience for many seasons to come.

The Klipsch Courtyard system is ready to rock straight out of the box, with all necessary accessories included: hammer-friendly caps, silicone wire nuts, and an Allen wrench for hassle-free setup.

Available in September from authorized Klipsch retailers. Learn more at www.klipsch.com.

TAKE IT OUTSIDE

Klipsch Legendary American sound goes outdoors. With 80 Years of audio mastery under our belt, the Klipsch Courtyard landscape speaker system is engineered for precision and tuned for real power. Tell the neighbors we're not sorry.

EVERYTHING YOU NEED

A one box solution, Klipsch Courtyard comes complete with everything you need to power your patio party. The main kit includes four aimable Tractrix horn-loaded satellite speakers, a subwoofer, mounting posts with stakes, and more - to deliver amazing outdoor sound from your AVR's zone 2. For a larger area, the Courtyard system is expandable up to eight satellite speakers and two subwoofers.

BIG BASS, SMALL SPACE

The new Klipsch Courtyard landscape speaker system includes a low-profile subwoofer with all the punch needed to deliver deep bass to your outdoor space. The sub can be buried or installed above ground to fit your backyard aesthetic. Features include an alcove to hide wires and mounting holes for ground stakes.

BRING ON THE ELEMENTS

The tough, colorfast Courtyard satellite speakers and subwoofer are IPX7-rated to withstand rain, snow, high-pressure water, and direct sun—delivering incredible audio in any climate for years to come.

SIMPLE SETUP

Fast to set up and get rocking, the Klipsch Courtyard landscape speaker system installs quickly and easily. Wire concealment, ground stakes, rotatable and locking speaker posts, silicone wire nuts, a hammer cap, and an Allen key are all included.
