Product Description: The Driftwood Sideboard Base in Buckboard's warm oak tones is designed to function as a standalone piece or to pair with the 6820-75900T-80 Display Hutch for a complete display unit. Featuring four self-closing drawers, a removable silverware tray, and a fixed bottom shelf, this base balances utility and rustic design. Its handcrafted finish and oak veneer details offer a textured, naturally aged aesthetic.

Collection Features: Striking a balance between heritage craftsmanship and contemporary versatility, where history and refinement are woven into every detail, the 45-piece Driftwood collection is rooted in authenticity. Revealing a depth of texture and a timeworn patina that evokes the beauty of naturally aged materials, the collection unfolds in three finishes. Buckboard evokes the quiet warmth of sun-faded oak. Worn Saddle is deep and burnished, a nod to the supple leather of well-loved armchairs and hand-tooled heirlooms. And Burnt Timber, dark and moody, carries the quiet drama of wood softened by time and touch. With an emphasis on craftsmanship and enduring style, the Driftwood collection offers a sophisticated yet livable approach to design, reminding us that true beauty—like great design—only grows richer with time.

Status: Coming Soon

Finish: Buckboard evokes the quiet warmth of sun-faded oak

Features: Can be used alone or with the 6820-75900T-80 Display Hutch

Four self-closing drawers

Removable silverware tray in left drawer

One fixed shelf on bottom

Material: Oak Solids and Oak Veneers

Drawer Construction: Hooker Furniture offers full height, full depth and full width drawers for maximum storage capacity. All drawers have strong, time-tested English or French dovetail construction, for years of problem-free use. Plywood drawer bottoms are attached to plywood drawer sides for strength and durability. Metal side guides or wood on wood guide systems operate smoothly.

Finish Construction: Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
