FEATURES

androidauto

Android Auto

The DMH-I500NEX also features Android Auto which extends the Android platform into the car in a way that's purpose-built for driving. Android Auto automatically brings you useful information and organizes it into simple cards that appear just when they're needed. It's designed to minimize distraction so you can stay focused on the road ahead. Android Auto is compatible with Android phones running Android 5.0 (Lollipop) or later. Android Auto may not be available on all devices.

Apple CarPlay

The DMH-I500NEX features Apple CarPlay, the smarter, safer and more fun way to use your iPhone® in the car. Apple CarPlay gives iPhone users an incredibly intuitive way to make calls, use Maps, listen to music, and access messages with just a word or a touch.

Hands-Free Calling and Audio Streaming

Stay safe and obey local hands-free laws with built-in Bluetooth (HFP). Easily pair a Bluetooth enabled phone to the DMH-I500NEX without having to go through complicated settings. When a registered Bluetooth device is in proximity to the receiver, the auto connection function automatically pairs the two units.

From hands-free calling, wireless audio streaming (A2DP) with artist, album, and song search*, simple pairing, and audio control (AVRCP), Bluetooth wireless technology has made life in the vehicle much more convenient. The DMH-I500NEX with Bluetooth also includes better call quality reception using Wideband Speech Handsfree Profile 1.6. Nearly doubling the frequency bandwidth (when compared to calls without Wideband Speech**) helps bring call quality similar to FM reception.

*Search functions vary by phone.

**Call quality depends on wireless provider's support of HFP 1.6.

CAUTION: Read the operation manual as well as all instructions and cautions before use. Pay attention to the road, limit glances to the device, and do not use any feature if it cannot be operated both safely and legally in your location and environment. Distracted driving may result in serious injury, including death.

¹Rear visibility systems (backup cameras) are required under federal regulations in certain new vehicles according to a phase-in schedule that began on May 1, 2016. **Owners of vehicles equipped with compliant rear visibility systems should not install or use this product in a way that alters or disables that system's compliance with applicable regulations.** If you are unsure whether your vehicle has a rear visibility system subject to these regulations, please contact the vehicle manufacturer or dealer.

²Video playback is enabled only when the vehicle is in park and the parking brake engaged.

Android Auto requires the Android Auto app on Google Play. Additional apps may be required for connected home status and control. Standard text messaging rates apply. Visit support.google.com/androidauto for more information.

Apple CarPlay requires iPhone 5 or newer with the latest version of iOS. Either "Made for iPod" or "Made for iPhone" means that an electronic accessory has been designed to connect specifically to iPod or iPhone and has been certified by the developer to meet Apple performance standards. Apple is not responsible for the operation of this device or its compliance with safety and regulatory standards.

Operations and functions may vary depending on iOS device or receivers.

Bluetooth functionality requires a compatible Bluetooth-enabled mobile phone. Certain Bluetooth features may not be supported by all compatible Bluetooth-enabled devices, and/or the functionality of such features may be limited in certain devices or by certain wireless carriers.

Not every USB device is compatible with a Pioneer headunit containing a USB port. For size and other limitations, please see Owner's Manual. Unauthorized copying of music or other files is strictly prohibited.

Pandora internet radio is a music service not affiliated with Pioneer. More information is available at www.pandora.com. Requirements to access the Pandora music service using a Pioneer system: iPhone using iOS-9 or later; compatible with Android OS 4.1.1 or higher; Pandora application; current Pandora account; wireless data plan; and iPhone cable for iPhone device. Android devices require a Bluetooth connection that support both SPP (Serial Port Profile) and A2DP (Advanced Audio Distribution Profile). Pandora service is currently only available in the U.S.

SiriusXM Radio is a subscription service not affiliated with Pioneer - service is available only in certain locations within the continental U.S. More information is available at www.siriusxm.com.

Spotify is a music service not affiliated with Pioneer. More information is available at www.spotify.com. Requirements to access the Spotify music service using a Pioneer system: iPhone 5c or newer with OS 8.0 or later; compatible Android smartphone; Spotify application; current Spotify account; wireless data plan; and iPhone cable may be required for iPhone depending on model. Android devices require a Bluetooth connection that support both SPP (Serial Port Profile) and A2DP (Advanced Audio Distribution Profile).

Connected services require connection to a wireless network via a compatible iPhone or Android smartphone device. Ability to use such services will depend on network availability. If your data plan does not have unlimited data, charges from your carrier may apply. Availability of non-Pioneer content and services, including apps and connectivity, may change without notice due to changes in operating systems, firmware or app versions; changes to, restrictions on or discontinuation of the service or service plans; non-Pioneer hardware changes; or other events.
