Product Description: The perfect complement to the classic hunt country flair and pedigree design details of the Telluride desks, the Telluride Tilt Swivel Chair supports your best work with timeless design details like shaped and carved arms, a leather seat and back, nailhead trim and a wood trim in a black finish over cherry veneers with reddish brown rub-through. In comfort and versatility, the Telluride chair is on casters, tilts and swivels and has a pneumatic lift for adjustable seat height.

Collection Features: Telluride's black paint finish with reddish brown rub-through, carved leather panels and nail head trim give this collection a rich masculine look.

Status: Active

Finish: Black finish over cherry veneers with reddish brown rub-through. Distressing includes rock and rasping.

Features: Leather seat and back (Aniline Plus Pigment)

Tilt swivel

Pneumatic gas lift

Casters

Material: Cherry Veneers with Carved Leather (Aniline Plus Pigment) and Nailhead Trim

Finish Construction: Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
