The lovely motif on the drawer panel of the Bramford Wheat Nightstand were inspired by a luxurious handbag our director of furniture Aimee Kurzner spotted. Made of mahogany with a light wheat finish, the pattern on the tan nightstand is made of interwoven taupe and ivory leather, and the ferrules on the legs are made of brass in a light antique brass finish. It has push-to-open drawers and storage underneath. We also offer this hue of the Bramford as a cabinet and accent chair, and in a nightstand, cabinet and chair in black.
