Brand: Hooker Furniture

Product Description: With the allure of an Impressionist painting, the dramatic Fingerprints Credenza features bronze-colored doors in a swirled pattern, contrasting with a black finish on the top, sides and interior and accented by bronze metal legs. Crafted of wood, resin and metal, the credenza has two doors with soft-close hinges and touch latches with one drawer behind each door and open space above and below the drawers. Media-ready, the credenza has a ventilated back panel and a power supply.

Collection Features: Come closer to Melange, and you will discover something unexpected, an eclectic blending of colors, textures and materials in a vibrant collection of one-of-a-kind artistic pieces.

Status: Active

Finish: Black finish on top, sides and interior contrast with the bronze gold color door fronts and metal legs

Features: Two doors with soft-close hinges and touch latches
One drawer behind each door
Drawers create an open space above and below drawers
Ventilated back panel

Power supply
Levelers

Material: Wood, Resin and Metal

Drawer Construction: Hooker Furniture offers full height, full depth and full width drawers for maximum storage capacity. All drawers have strong, time-tested English or French dovetail construction, for years of problem-free use. Plywood drawer bottoms are attached to plywood drawer sides for strength and durability. Metal side guides or wood on wood guide systems operate smoothly.

Finish Construction: Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
