PowerSteam® Panel-Ready Dishwasher

SKS

PowerSteam® Technology

PowerSteam technology offers maximum steam cleaning for fewer water spots, resulting in sparkling clean dishes.

LoDecibel™ Quiet Operation (44 dBA)

Signature Kitchen Suite dishwashers are among the quietest on the market, so you can enjoy a powerful clean—without disrupting your day.

Intelligent Lighting

LED lighting illuminates the interior while a beam of light shines information on the floor to let you know the status of the cycle.

Easy Loading and Maximum Flexibility

The EasyRack™ Plus system provides outstanding flexibility and convenience, adjusting to just about any load of dishes to help ensure optimal cleaning performance. The height adjustable 3rd rack provides more space and flexibility to fit virtually everything from flatware to wine glasses.

Wi-Fi Enabled for Smart Control

Monitor cycle status and start cycles remotely, get notifications when a cycle is completed, and download and use specialized dishwasher cycles—all from a mobile device using the ThinQ® app.

5.5-24.2 lb. panel weight.

Installation Clearances

Notes

This dishwasher is designed to be installed flush with a field-installed, 3/4" (20 mm) custom door panel. The dishwasher depth is European-style, designed to sit completely flush in 24" deep cabinets, within a standard dishwasher opening.

An opening may be needed on both sides to route plumbing and electrical connections. See marked areas above for water and electrical clearances in base of dishwasher.

To ensure proper drainage, install the dishwasher no more than 12 ft. (3.65 m) from the sink.

Electrical connection should be in an accessible location adjacent to and not behind the dishwasher and within 4 ft. (1.2 m) of the dishwasher's side.
