

LC-70LE735U**AQUOS****Overview**

With the introduction of the 70-inch class (69.5" Diagonal) LC-70LE735U, Sharp once again reinforces its leadership in LCD and LED technology. Sharp's proprietary quad pixel technology adds a fourth color, yellow, to the traditional RGB pixel format, enabling many colors to be displayed for the first time. Featuring more colors than any other television, see never-before-seen colors like sparkling golds, Caribbean blues and sunflower yellows. On the LC-70LE735U, this technology is enhanced further with Quad Pixel Plus, which produces smoother lines by enabling the individual control of all 8-million sub-pixels on the screen.

The LC-70LE735U is fully featured, including Vudu™ apps, Netflix streaming video, and CinemaNow video, along with the industry's leading online support system, AQUOS Advantagem Live. And, with built-in WiFi, connecting is easier than ever.
