CUTOUT DIMENSIONS

30" (762 mm) — Furniture return

84"-85^1/16" (2134 mm-2164 mm)

min. 4" (102 mm)

4" (102 mm)

A: Area for installation of power connection.
B: Area for running the water line. It is recommended that the waterbox is placed adjacent to the installation cavity, so that it can be accessed for service without uninstalling the appliance. If this is not possible, place the recessed waterbox adjacent to the water supply socket elevated at the heights as referenced in areas A and B.
C: Niche depth depends on kitchen design. For a flush installation, the depth needs to be at least 24 inches plus the thickness of the door panel.

Stainless steel models contain a panel-ready base unit, ready-to-install stainless steel door(s) with a right or left door swing and handle(s).

FILTERS

REPLFLTR55
Freedom® Water Filter
Replacement water filter for use in all freezer and bottom freezer models

FRAMEKIT10
Freedom® Frame Kit
For any custom column installation in 24-inch deep cutouts. With two metal side trims whose placement between the interior cutout wall and the appliance helps overcome the challenge of unfinished cabinet returns.

< 6" (<152 mm)
Heater Kit Required

HEATRKIT20 – 13W @ 120V
Freedom® Heater Kit
Low voltage heating element designed to guard against condensation build up. For use with non-traditional side-by-side installations (i.e. two wine columns) or instances where appliances are installed less than 6-inches (152 mm) apart from one another but not connected side-by-side. This kit is recommended for areas that are subject to high humidity or located next to an outside wall.
