Product Description: From the tip of its arched top to its delicately scalloped base, the Ciao Bella Wardrobe is all romance. In a dreamy creamy finish that is hand-chiseled to look beautifully aged, the wardrobe is packed with storage with two doors, two adjustable shelves, a clothing rod and one drawer. This casual yet elegant focal-point designer piece is crafted of Poplar and Hardwood Solids with Maple and Pine Veneers.

Collection Features: Inspired by the small farmhouses that dot the French and Italian countryside and have been in the hands of the same family for generations, Hooker Furniture introduces the rustic Ciao Bella Collection. The whole home collection is an eclectic mix of European farmhouse pieces that have the appearance of furniture that has been refinished multiple times as it has passed through the generations. Ciao Bella includes bedroom, dining room, occasional, home office and accent furniture, and features a finish called Timeworn Gray that accentuates the historical nature of European farmhouses – many of which include a variety of furniture styles that have been added by each generation of owners.

Status: Active

Finish: Distressing includes hand chiseling, emulsion, spatter, water marks and cow tailing.

Features: Two doors
Two adjustable shelves

Clothes rod
One drawer

Material: Maple and Pine Veneers with Resin

Drawer Construction: Hooker Furniture offers full height, full depth and full width drawers for maximum storage capacity. All drawers have strong, time-tested English or French dovetail construction, for years of problem-free use. Plywood drawer bottoms are attached to plywood drawer sides for strength and durability. Metal side guides or wood on wood guide systems operate smoothly.

Finish Construction: Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
