Type: Cabinets, File/Storage Cabinets

Category: Home Office

Collection: Telluride

Number of Drawers: 2

Style: Traditional

Finish: Blacks

Brand: Hooker Furniture

Product Description: A stylish work-from-home storage solution, the Telluride Lateral File has a hunt country flair and pedigree design details like carved scroll motif accents on the front and a black paint finish with reddish brown rub-through. Crafted of Cherry Veneers, the piece has two file drawers with Pendaflex letter/legal file system on steel ball-bearing slides. Two locks and an anti-tilt mechanism.

Collection Features: Telluride's black paint finish with reddish brown rub-through, carved leather panels and nail head trim give this collection a rich masculine look.

Status: Active

Finish: Black finish over cherry veneers with reddish brown rub-through. Distressing includes rock and rasping.

Features: Two file drawers with Pendaflex letter/legal file system on steel ball bearing slides

Two locks

Anti-tilt mechanism

Levelers

Material: Cherry Veneers

Drawer Construction: Hooker Furniture offers full height, full depth and full width drawers for maximum storage capacity. All drawers have strong, time-tested English or French dovetail construction, for years of problem-free use. Plywood drawer bottoms are attached to plywood drawer sides for strength and durability. Metal side guides or wood on wood guide systems operate smoothly.

Finish Construction: Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
