**Collection:** Serenity

**Number of Shelves:** 0

**Number of Drawers:** 0

**Number of Leaves:** 0

**Style:** Casual

**Bed Size:** King

**Finish:** Grays

**Brand:** Hooker Furniture

**Collection Features:** Designed to create a comfortable and inviting retreat within the home, the Serenity collection is defined by its casual finishes and variety of organic textures and materials that combine to deliver a relaxed aesthetic. Inspired by casual, waterfront living, the collection was designed to bring the relaxed aura of the outside in -- no matter where the consumer lives. White oak veneer delivers two key finishes -- a whitewashed look and a weathered gray -- and is accented with shades of soft coastal blue, sand blasted pine and soft white bronze metal details. Organic materials including abaca rope, natural stone, painted grass cloth, louvered details, and faux coral motifs add to its casual style. The collection's silhouettes were designed to reflect three distinct personalities -- a traditional nature with serpentine shaped case pieces and a softer aesthetic, a modern persona with linear shapes and coral accents, as well as a more casual contemporary character with soft-edged case pieces and organic surfaces.

**Status:** Active

**Finish:** Malibu: gray washed oak finish. Distressing wirebrushing, drawknife and rasping.

**Features:** King size

Must use with coordinating headboard and footboard

Casual styling

**Material:** Oak Veneers

**Finish Construction:** Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

**Frame Construction:** Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
