Product Description: Add softness and comfort to your modern space with the 24-inch-round Luna Ottoman, available in your choice of fabric covers. Our M upholstered ottomans are benchmade from sustainably-sourced wood and are upholstered by our skilled craftspeople in North Carolina and Virginia. Every piece is thoughtfully designed for today's modern lifestyle.

Status: Active

Features: Round shape

Material: Leather

Frame Construction: Our M upholstered furniture collection pieces are benchmade from sustainably sourced wood and upholstered start to finish by our skilled craftspeople in both North Carolina and Virginia. Every piece has been thoughtfully designed for today's modern lifestyle. Frames are constructed of sustainably certified kiln dried engineered hardwood. Frame parts are joined with precision cut interlocking joints that are glued, stapled to reduce movement, twisting and warping. Frames have cornerblocks that are glued and screwed at stress points, especially on seat rails and other high stress areas. Depending on rail thickness, frames may be of a hybrid construction, adding a solid hardwood inner frame to give seat rails additional support.

Leather shown: ML4002-80 Chadwick Alabaster

Seat: Poly Seat Cushion - Tight seats: High resiliency plant-based foam with an overlay of polyester fiber.

Leather: Choice of over 30 leathers to choose from including finishes and aniline leather types

Seating Construction: Seat bases are supported by a sinuous arc metal spring construction. Our springs are made from partially recycled content. Due to the design requirements of some styles, rubberized webbing may be used instead of springs. Double rows of springs are used at the corners for extra support. Seat bases are insulated with polypropylene fabric and are padded with synthetic fiber.
