Product Description: In a strikingly clean and simple silhouette, the Orson Sideboard is crafted of authentic Mahogany Solids and features four louvred-front wood doors with soft-close hinges and magnetic door catches and slim tapered legs. Behind each pair of doors is one adjustable wood shelf. There are wire management holes in the back panel, and one power supply.

Finish: Dark mahogany finish

Features: Four louvred front wood doors with soft-close hinges and magnetic door catches
One adjustable wood shelf behind each pair of doors
Wire management holes in back panel
One power supply

Material: Mahogany Solids

Finish Construction: M utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: M uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of

veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
