14" HYBRID COPPER

Copper has numerous health benefits and has been known to increase collagen production, energy levels, iron absorption, and antimicrobial properties. The sleeping surface of this specialty mattress is made with a plush 3" of Copper-Gel Infused Memory Foam. The conforming copper layer will aid in temperature regulation and can aid in feeling rejuvenated. Foam-encased coils accompany this premium layer for a beautifully plush sleep surface reinforced with the right amount of support.
