SKU: P349-DR-K2

Availability: Expected Availability Date:

Type: Dining Tables

Category: Casual Dining

Collection: Higgins Street

Style: Traditional

Finish: Medium Wood

Brand: PFC

Product Description: More than just a piece of furniture, the Higgins Street Gathering Trestle Table creates a communal atmosphere and encourages a sense of togetherness. The open design with hinged drop leaves on each end allow for comfortable, versatile seating on all sides, making it suitable for meals and cherished memories. The Woodstone finish and trestle base contribute to the table's overall appeal. Whether placed in a dining room, a kitchen, or an open living space, this table becomes a gathering spot where shared moments and connections evolve into celebrations.

Collection Features: The Higgins Street collection gathers elements of traditional English and French designs, casualized for the modern consumer by its updated finishes and functional scaling. Capitalizing on the familiarity and interest of these rich histories, this collection, both suited and individual, is a compilation of two distinct but complementary lifestyles.

Status: Active

Finish: The Woodstone finish creates a sense of tranquility and adds character to the overall design

Features: An eclectic mix of antique French and English styles with modern design elements offer a curated look

Hinged drop leaves on each end allow for effortless expansion to accommodate more guests

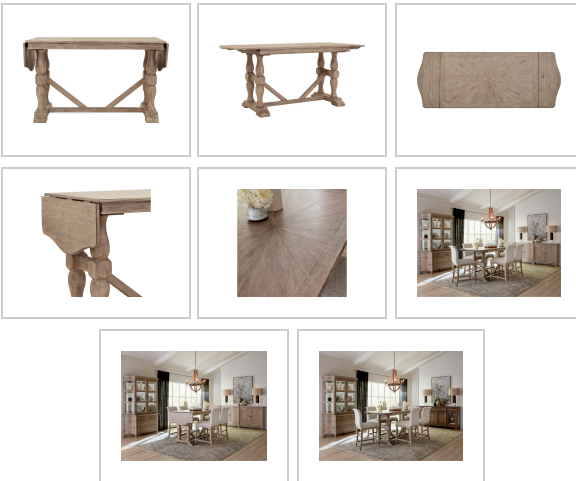

A trestle base with ornamental elements and decorative carving provide stability and contribute to the overall aesthetic

Intricate sculptural details add a sense of grace and allure

Material: Hickory Veneers

Frame Construction: Pulaski uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
