

UR 500
Undercounter

LIEBHERR
Quality, Design and Innovation

The 24" **UR 500** takes both the designer and the user in mind, offering convenient features and design flexibility to fit any room, whether it's in a home or business. The universally designed, single-door undercounter refrigerator can be adjusted in height to match that of the counter space, providing an optimal fit for countertops up to 34" high. Like all Liebherr integrated appliances, the UR 500 uses door-on-door technology, allowing custom panels to be affixed directly onto the appliance door, ensuring seamless integration within your custom design, as well as easy installation.

As a true undercounter refrigerator, the **UR 500** offers the perfect solution for storing your favorite foods in any room, whether it be in the kitchen island, office, or home theater. The UR 500 includes a variety of flexible storage features, like a large removable VarioBox that can be taken from fridge-to-table, multi-use drawer, and an additional storage bin at the bottom of the refrigerator. The UR 500 includes convenient door racks, even for larger gallon items. Doors close automatically and gently thanks to our SoftSystem technology which eliminates slamming, even when shelves are fully loaded.

The **UR 500** can be installed in a Side-by-Side combination alongside other undercounter refrigerators, freezers, beverage centers, or wine cabinets as part of a central food and beverage hub. Noise is kept to a minimum thanks to virtually silent, speed controlled, and specially-absorbed compressors along with a low noise cooling circuit, ensuring exact performance, energy efficiency and SuperQuiet operation.

* Estimated energy cost will depend on utility rates and use. Estimated energy cost based on a national average electricity cost of 12 cents per kWh.

** Noise output – according to EN 60704-3.

German Engineering: Our superior products offer premium quality, cutting edge design, and innovative features that best fit your lifestyle. The use of high quality materials, perfectly detailed finishes, and elite cooling components are combined with the latest production processes, resulting in an outstanding cooling product.

Energy Star: The entire line of North American Liebherr appliances meet or exceed ENERGY STAR® rating requirements, greatly reducing greenhouse emissions and energy costs.

SuperCool: The automatic SuperCool function lowers the refrigerator temperature down as far as 35°F for as long as 12 hours - ideal for rapidly cooling freshly stored food.

Super Quiet

SuperQuiet: Noise levels are kept to a minimum thanks to virtually silent, speed-controlled, and sound absorbing compressors. Alongside a low noise cooling circuit, these features ensure exact performance, energy efficiency, and SuperQuiet operation.

Soft System

SoftSystem: Doors close automatically and gently from a minimum opening angle of approx. 30° thanks to our SoftSystem technology, which eliminates slamming even when shelves are fully loaded.

Electronic Control

Electronic Display: Our intuitive electronic touch control panel ensures all functions are easy and convenient to use as well as guarantees that the settings selected remain accurate and constant.

Glass Line

GlassLine: The elegant yet tough GlassLine shelves are scratch resistant and easy to clean as well as dishwasher safe. The space-saving shelves are designed for organization and are completely adjustable to suit your needs and the contents of the refrigerator. Additionally, the lighting shines through for a brighter interior.

LED

LED: The LED ceiling light creates a high-class lighting ambience within the refrigerator. Its beautifully designed, space-efficient housing is centrally positioned to provide a delightfully even illumination.

Transparent vegetable bins: Transparent vegetable bins provide plenty of space for organizing fruit and vegetables. In addition, they are easy to clean.

Appliance Dimensions

E	23 - 1/2" (597 mm)
F	closed: 21 - 5/8" (550 mm) max. opened: 55 - 5/8" (1412,9 mm)
G	adjustable feet screwed in: 32 - 1/4" (819,5 mm) adjustable feet screwed out max: 34 - 1/4" (869,5 mm)
H	6 - 5/8" - 8 - 9/16" (168 mm - 218 mm)
I	21 - 1/4" (540 mm)
K	max. height adjustment: 2" (max. 50 mm)

Toe Kick Installation

The toe kick installation will be different depending on the cabinetry where the appliance is installed. A toe kick panel will be required to cover the gap between the ventilation grill and the floor.

A cut-out in the toe kick panel is necessary when the toe kick covers the ventilation openings of the ventilation grill.

If the cabinets do not have a toe kick, a toe kick can be prepared and fitted just in front of the appliance.

A stainless steel adjustable toe kick is provided with the unit. A custom panel toe kick can also be used.

Door Panel for Standard Toe Kick

These panel dimensions are for inset flush installation in a standard cabinet opening of 24" (610 mm) wide with a cabinet that is 30" (762 mm) tall plus a 4" (102 mm) or 4 1/2" (115 mm) toe kick.

If the cabinet opening is different you will need to modify the door panel accordingly.

Cabinet Dimensions

A	min. 21 - 5/8" (min. 550 mm)
B	21 - 1/4" (540 mm)
C	23 - 5/8" - 24" (600 mm - 610 mm)
D	32 - 1/4" - 34 - 5/8" (820 mm - 880 mm)
	3" (approx. 76 mm) of the cabinet needs to be finished as it can be seen when the door is open.

D	32 - 1/4" - 34 - 5/8" (820 mm - 880 mm)
F	closed: 21 - 5/8" (550 mm) max. opened: 55 - 5/8" (1412,9 mm)
L	21 - 1/4" (540 mm)
