

JA624RN

GE® 24" Self Clean Free-Standing Electric Range

Dimensions and Installation Information (in inches)

KW Rating	
240V	9.8
208V	7.4
Breaker Size	
40 Amps†	

†**Note:** Check local codes for required breaker size.

Effective January 1, 1996, the National Electrical Code requires that new construction (not existing) utilize a 4-conductor connection to an electric range.

Receptacle Locations: Locally approved flexible service cord or conduit must be used because terminals are not accessible after range installation. See shaded area in drawing for location of electrical outlet box. Recommended outlet locations allow range to be installed directly against wall.

One Year Warranty: Entire Appliance: Parts and Labor; In-Home

Installation Information: Before installing, consult installation instructions packed with product for current dimensional data.

For answers to your Monogram®, GE Profile™ or GE® appliance questions, visit our website at geappliances.com or call GE Answer Center® service, 800.626.2000.

Recommended acceptable electrical outlet area. Orient the electrical receptacle so the length is parallel to the floor.

All GE ranges are equipped with an Anti-Tip device. The installation of this device is an important, required step in the installation of the range.
