

AMAYA

SOFA | SM5411-SF

DETAILS:

With its conservative looks and transitional flair, this sofa and loveseat set is for those who decided to go for a neutral palette in their home. The soft linen-like fabric in cream recedes to the background while small details such as the rolled arms, welt trim, and turned bun legs take center stage--helping to emphasize the delicate silhouette of the piece and making it its focal point. Top it off with the subtle pattern on the throw pillows which goes with the visually reserved motif of the set.
