

ULTRA SOFT EURO TOP

- Stretched Knit Tencel™ Cover provides a cool breathable cover, allowing air to flow freely and wicks away moisture.
- 2 layers of Gel-infused Contouring comfort layers just below the surface for enhanced pressure relief.
- Ultra Plush Response foam layer offers comfort comparable to resting on a cloud for your body.
- 2 layers of Cooling Relief Latex, enriched with Copper, naturally adapts to alleviate your individual pressure points.
- A Dynamic Transitional Latex layer provides long-lasting support and naturally cool comfort.
- Our proprietary Seven-Zone design creates the optimal combination of pressure relief and support. With our design, your mattresses will deliver increased support in the much-needed lumbar region, while gently enveloping areas like the shoulders, hips and thighs.

spring-free™
