

CORSO ROUND COFFEE TABLE

The 44 inch round Corso Coffee Table is an interesting living room table packed with fine details. Starting with the tempered glass top which is hand-beveled, your eye then moves outward to see the carefully shaped detail of the solid wood frame. Turned legs connect the top to a lower shelf which features a tightly woven case surface divided into four sections and again framed with solid wood. Finally, the Corso coffee table includes removable casters to make adjusting its position easy.

- Alder

Solid Wood - Made using genuine solid wood construction
