6		LEG SUPPORT SOUTIEN POUR PATTE	1

The diagram illustrates a four-bar linkage mechanism. The four links are represented by circles, each labeled with the number 4. The joints are represented by pins, labeled with the number 1. The mechanism is shown in a specific configuration. A callout labeled 5 shows a detailed view of a link, which is a cone-shaped component. Another callout labeled 6 shows a detailed view of a joint, which is a pin with a flange. A dashed line connects the callout 5 to the joint 6, indicating that the callout 5 is a detailed view of the joint 6.

The diagram illustrates a sofa assembly. The main body of the sofa, labeled 1, features a tufted seat cushion and a low, rectangular backrest. Two detachable components, labeled 2, are shown above the sofa, each with a tufted surface. These components are connected to the main sofa body by cylindrical parts, labeled 3, which are shown in a detached state. Arrows indicate the relationship between the detachable backrest (2) and the main sofa backrest, and between the detachable armrests (3) and the main sofa armrests.
