Dimensions

Depth	22 1/4"
Height	23 9/16"
Width	23 1/2"

Features & Benefits

Generous capacity
With a generous sized internal cavity, you can create several dishes at once using multiple shelves.

Perfect results
Our built-in ovens feature ActiveVent technology for optimized moisture levels, and AeroTech™ for even heat distribution. Get perfect results even when you're using multiple shelves.

Multi-function flexibility
Seven functions including Aero™ Pastry, Aero™ Bake and True Aero™ mean no matter what you're cooking, you've got the right heat to match.

Refined styling
With sophisticated handle styling and stainless steel finish, our built-in ovens are designed to match the rest of Fisher & Paykel's kitchen appliance family.

Cleaning is simple
The self-clean function breaks down food residue at a very high temperature, leaving a light ash that's easily removed with a damp cloth.

Safe and sound
The CoolTouch door features triple glazing and a cooling system that ensures it's safe to touch from the outside – protecting both your hands and the surrounding cabinetry.
