

OXFORD OFFICE

GAT CREEK  
HANDMADE IN THE USA

## Making Work from Home Work for You

Oxford Office features cleaner lines, modern spirit, flexibility and fun that's more in line with today.

Collection pieces bunch alongside one another by design providing a continuous extension of the desk top no matter what element is added. What is bunching? It's a cool way to keep your new world organized with no wasted space, endless ways to manage clutter (a real enemy of productivity) and keep your energy focused on work.

System pieces can be custom sized to precisely fit the room and maximize utility. Custom-dimensioned products are available at an additional charge.
