**Product Description:** As versatile as it is essential, the Gale Dining Arm Chair brings comfort to the table – and can be used as extra seating in living spaces as well. Gale has a tight seat back with a button tufted design, a plush tight seat and low upholstered arms. The curved and tapered wood front legs and back legs are available in your choice of Ebony, Perk and Toffee finishes.

**Finish:** Choice of Ebony, Perk & Toffee finishes

**Features:** Button tufted tight seat back  
Tight seat  
Curved tapered wood front legs

**Material:** Fabric

**Finish Construction:** M utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

**Frame Construction:** Our M upholstered furniture collection pieces are benchmade from sustainably sourced wood and upholstered start to finish by our skilled craftspeople in both North Carolina and Virginia. Every piece has been thoughtfully designed for today's modern lifestyle. Frames are constructed of sustainably certified kiln dried engineered hardwood. Frame parts are joined with precision cut interlocking joints that are glued, stapled to reduce movement, twisting and warping. Frames have cornerblocks that are glued and screwed at stress points, especially on seat rails and other high stress areas. Depending on rail thickness, frames may be of a hybrid construction, adding a solid hardwood inner frame to give seat rails additional support. Dining chairs have hanger bolts through the front and back posts with screws in the corner blocks. Dining chairs have metal brackets for added strength at the side rail and back post joints.

**Seat Back:** Tight back

**Seat:** Poly Seat Cushion - Tight seats: High resiliency plant-based foam with an overlay of polyester fiber.

**Fabric:** Choice of over 130 fabrics including a wide selection of performance fabrics

**Padding:** Padded outside arms and back for smoother surface and neater appearance.

**Contrasting Fabric:** Contrasting buttons available for an upcharge

**COM Fabric Yardage Required 54-Inch Plain:** 3.25

**Seating Construction:** Seat bases are supported by a sinuous arc metal spring construction. Our springs are made from partially recycled content. Due to the design requirements of some styles, rubberized webbing may be used instead of springs. Double rows of springs are used at the corners for extra support. Seat bases are insulated with polypropylene fabric and are padded with synthetic fiber.

**Trim:** Contrasting buttons available for an upcharge.
