

DRAWER END TABLE

Clean lines and simple details come together to make the Foundry Drawer End Table full of character. Like all of the living room tables in the collection, it is designed to be admired from every angle, even to the point of using frames end panels on the sides. A slat shelf on the bottom and a full-depth, soft-close drawer make it a functional side table.

- One drawer
- lower slatted shelf
- Norwegian Spruce

Solid Wood - Made using genuine solid wood construction
