Sleeps Cool:

COOLSTREAM® COOLING FABRIC

Special conductive yarns actively move heat through the fabric to maintain a cool, comfortable sleeping environment all night long.

Advanced Cooling:

UNIFORM TECHNOGEL LAYER

Technogel's naturally high thermal conductivity means it helps disperse heat released from your body throughout the night. Plus, an innovative grid design helps promote airflow and breathability to enhance thermal regulation.

Comfort Layers:

GRAPHENE ENERGEX

Graphene infused Energex regulates temperature for deeper sleep by drawing excess heat away from your body while absorbing pressure so you can sleep undisturbed without tossing and turning. Engineered with side support.

Comfort Layers:

ENERGEX COMFORT

Gives your body the support it needs for proper spinal alignment and is made with open cell technology for lasting comfort that sleeps cool. Engineered with head & foot support.

Personalized Comfort:

HIGH DENSITY ORTHOPEDIC SUPPORT CORE

Pressure relief and contouring is delivered with our stable high density, CertiPUR-US certified foam core to provide support and comfort. Engineered with ergonomic shoulder relief.
