IPFX-B40V-IRW3

4MP Starlight Varifocal Bullet Network Camera

System Overview

The IPFX-B40V-IRW3 is a 4MP bullet camera featuring our latest generation of 1/2.9" CMOS sensors and Starlight support with increased IR illumination up to ~197'. Housed in a weatherproof IP67 rated casing, the camera also utilizes H.265 encoding for optimized storage and AI functions such as vehicle and human recognition using Intelligent Motion Detect 2.0 and Perimeter Protection.

The camera also features a motorized, 2.7mm-13.5mm lens which offers up a 104° -29° horizontal field of view. The zoom level is fully controllable directly from the camera interface, enabling you to obtain the perfect shot. It's also equipped with a built-in mic for audio capabilities. This makes the camera well suited for exterior applications on commercial as well as residential installations.

Made in South Korea and conforms to the Trade Agreements Act (TAA)

Functions

Smart(H.265+ & H.264+)

Deliver high quality video without straining the network, Smart H.265+ is the optimized implementation of H.265. The Smart H.265+ encoding technology includes a scene adaptive encoding strategy, dynamic GOP, dynamic ROI, flexible multi-frame reference structure and intelligent noise reduction, providing saving of up to 70% of bandwidth and storage when compared with standard H.265

Intelligent Video Analysis (IVS)

With built-in intelligent video analytics, the camera has the ability to detect and analyze moving objects for improved video surveillance. The camera provides optional standard intelligence at the edge allowing detection of multiple object behaviors such as Tripwire analytics, allowing the camera to detect when a predetermined line has been crossed, ideal for business intelligence, workforce optimization, and actionable intelligence.

- 1/2.9" 4 Megapixel progressive CMOS
- H.265 & H.264 triple-stream encoding
- Outputs max. 4MP (2688 × 1520) @25/30 fps
- Intelligent Motion Detect 2.0, Perimeter Protection
- Built-in Mic, AI SSA
- 2.7~13.5mm Motorized varifocal lens
- Starlight Support, Max IR distance: 197ft
- IP67, PoE, Micro SD card slot, up to 256GB

Starlight

For challenging low-light applications, Starlight Ultra-low Light Technology offers best-in-class light sensitivity, capturing color details in low light. The camera uses a set of optical features to balance light throughout the scene, resulting in clear images in dark environments.

Perimeter Protection

IC Realtime's Perimeter Protection features significantly improve detection accuracy. The benefits of Perimeter Protection include up to a 90% reduction in false alarms. Other advantages include a decrease in pixel count requirement for object detection, which translates into more efficiency with less strain on the system. Perimeter Protection options let you customize tripwires based on the object type and allow intelligent automation within a limited area of access such as pedestrian or vehicle-only zones. The combination of advanced AI analytics and real-time alerts maximizes efficiency & balance of the total systems capacity and resources resulting in greater surveillance system efficiency.

iMD 2.0 (Intelligent Motion Detect)

The AI Machine Learning algorithms in our Intelligent Motion Detection (iMD) recorders & cameras means detection gets more accurate over time. Now, iMD 2.0 provides even better recognition, even fewer false alerts, and it encodes detection metadata in every video frame right from installation. This enables our new Object Search system to quickly locate recorded clips matching your search parameters.

Protection (IP67, wide voltage)

Subjected and certified to rigorous dust and water immersion tests, the IP67 rating makes it suitable for demanding outdoor applications. For environments with rain, sleet, snow and fog, an integrated wiper provides users with clear visibility at all times.

Wide voltage: The camera allows $\pm 30\%$ input voltage tolerance (wide voltage range), and it is widely applied to outdoor environment with unstable voltage.

Technical Specification

Camera

Image Sensor	1/3" 4 Megapixel progressive CMOS
Effective Pixels	2688(H) ×1520(V)
RAM/ROM	512MB/128MB
Scanning System	Progressive
Electronic Shutter Speed	Auto/Manual 1/3 s–1/100000 s
Minimum Illumination	0.005 lux@F1.5 (Color, 30 IRE) 0.0005 lux@F1.5 (B/W, 30 IRE) 0 lux (Illuminator on)
IR Distance	Distance up to 197 ft (60 m)
IR On/Off Control	Auto / Manual
IR LEDs	4
Lens	
Lens Type	Motorized vari-focal

Lens Type					
Mount Type		φ14			
Focal Length		2.7mm~13.5mm			
Max. Aperture		F1.5

AI Functions

IVS				
Basic IVS	Tripwire; Intrusion			
Perimeter Protection				
Capabilities	Tripwire; Intrusion (These functions support the classification and detection of vehicle and human objects)			
Intelligent Motion Detect 2.0				
Capabilities	Advanced secondary filtering for human and motor vehicle , reducing false alarms caused by leaves, rain and lighting condition change. Supports Object Search with compatible NVRs.			
AI Search				
Capabilities	Works together with AI enabled NVRs to perform refined intelligent search, event extraction and merging to event videos			

Accessories

MNT-JUNCTIONBOX-1
