

Description

Savant's IDC-T00L transforms the Apple® iPod touch® into a cost-effective, wireless charging panel providing an exciting touch interface option.

The IDC-T00L is comprised of a Mounting Plate (IDC-TMPL) and the Back Box (IBB-T00L). A low-profile, magnetically attached bezel may be ordered in several finishes to match any decor.

The iPod touch is powered via the Mounting Plate and its touch screen is used for wireless navigation and control of Savant automation and control solutions.

The IDC-T00L is specifically designed as a fixed docking solution and is not intended to be removed.

The iPod touch is placed in the Mounting Plate and mechanically held with a locking fastener. The IDC-T00L supports any iPod touch with the new Lightning™ Connector.

Feature Summary

- In-wall wireless charging dock for the new Lightning connector (iPod touch® not included)
- Transforms a 5th Generation iPod touch into a fixed wireless in-wall touch panel
- Easy to install and effortlessly placed in strategic locations
- Portrait or landscape installation options
- Scalable and expandable—add multiple in-wall charging docks throughout the installation
- Removable, magnetically attached bezels
- Bezels available in white, black, almond, polished chrome, satin nickel, oil bronze or paintable primer finish, and in either a round- or square-cornered style
- Cost-effective solution that is simple to install—ideal for retrofits
- Configured and customized using RacePoint Blueprint™

NOTES:

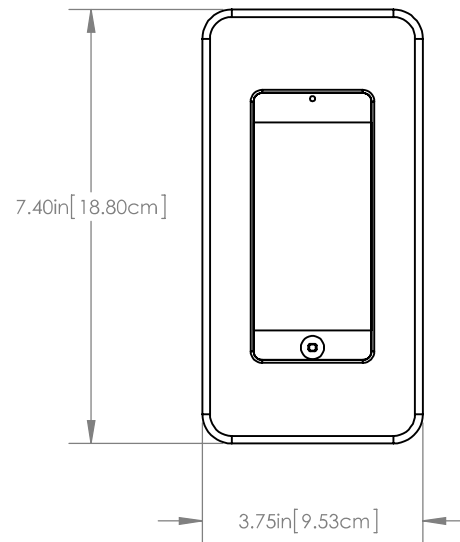

1. iPod touch not included. For the 4th generation iPod touch that contain the 30-pin connector use the following in-wall dock models IDC-T000-XX.
2. Bezels are sold separately.
3. The IDC-T00L does not provide Savant network connectivity or communications.

Dimensions

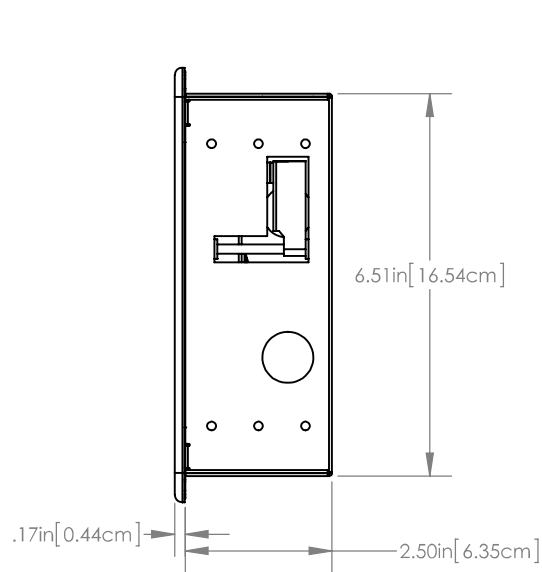

The next figures show the dimensions of the IDC-T00L. Shown with round-cornered bezel.
