48-INCH DUAL-FUEL PRO RANGE WITH
SOUS VIDE AND INDUCTION

BUILT-IN SOUS VIDE

The industry's first built-in sous vide delivering the ultimate in precision cooking, right on the cooktop. Get professional-style results every time and capture the full, true flavor of foods.

POWER-UP OR SIMMER DOWN

Two Ultra-High Burners deliver 23K BTUs of pure cooking power for better searing and quick stir frying. Two Ultra-Low Burners simmer down to maintain temperatures as low as 100° to prepare delicate sauces and sugary confections.

TWO-ZONE INDUCTION

When the recipe calls for instant temperatures and precision control, two induction zones meet the culinary need. The zones can be combined for use with a griddle, Teppanyaki plate or large cookware.

STEAM-COMBI AND CONVECTION OVEN

The 18-inch oven combines steam and convection cooking for gourmet results. The convection system cooks food quickly and evenly while steam helps to preserve texture, appearance and taste. The 30-inch oven features ProHeat® convection technology with a rear-wall element and fan to evenly distribute heat to every rack.

SPEEDCLEAN®

Makes fast work of cleaning a lightly-soiled oven with just a ten minute cycle, using only water.
