

Quick-Start Guide

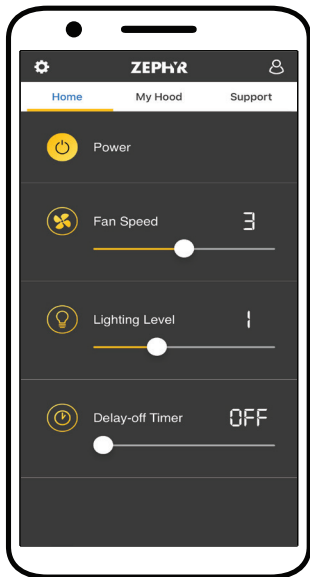

Thank you for choosing Zephyr!

Your range hood is compatible with our Zephyr Connect app. All you need is a Wi-Fi connection with access to the internet.

Zephyr Connect allows you to control your range hood from anywhere using a mobile device or smart speaker; includes real time diagnostics and provides you with important product information. Please follow this Quick-Start Guide to get started.

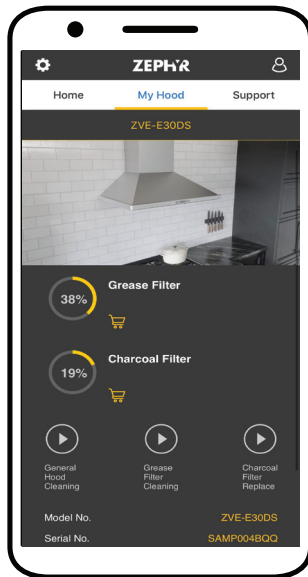

Zephyr Connect helps you connect to what matters.

Zephyr Connect App Features

Control your hood remotely with the touch of a button:

- Fan Speed
- Lighting
- Delay-Off Timer
- TruHue Level (on select models)

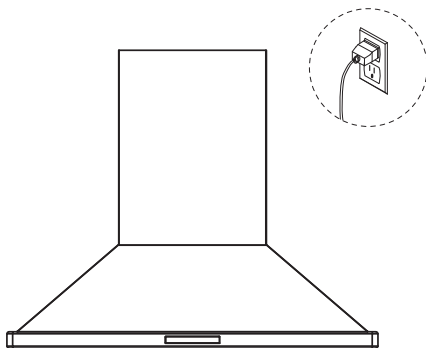

View important information:

- Filter Life Status
- How-To Videos
- Model and Serial Numbers
- Warranty Information

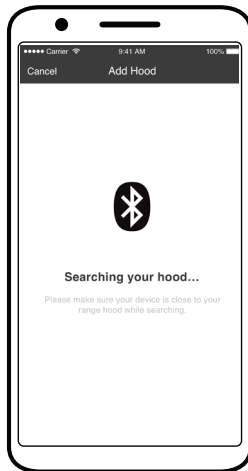

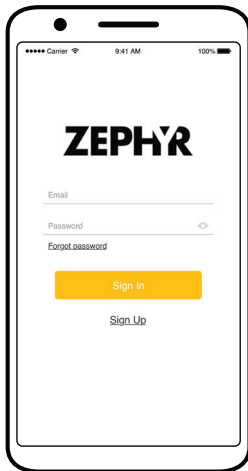

1 Getting Started

Ensure your range hood is connected to a power source and within range of your WiFi network.

2 App Install

Download the Zephyr Connect app from Google Play or the Apple App Store, and follow the on-screen instructions.

NOTE:

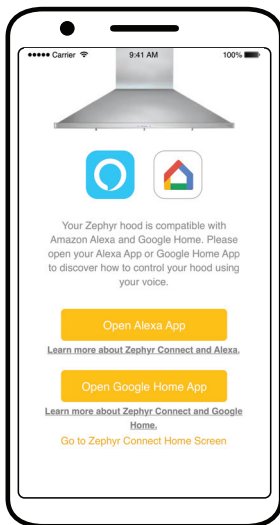

When prompted, you will need to place your hood into Bluetooth® pairing mode.

- For models ALU and DLG, gently press the Fan button on the controls for 3 seconds. Or, on the wireless remote control, press the Fan and Delay-Off buttons simultaneously to enter pairing mode.
- For all other models, press the Fan Down and Lights buttons on the controls simultaneously for 3 seconds.

If prompted, the Bluetooth® pairing code is 123456.

3 Amazon Alexa and Google Home Connectivity

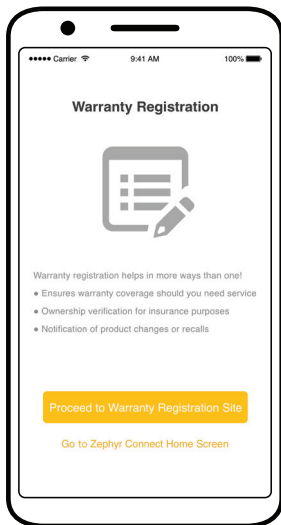

During setup, follow the on-screen instructions to connect your hood to Amazon Alexa and/or Google Home. This can also be set up later by tapping the Profile icon (👤) in the app.

Warranty Registration

During setup, follow the on-screen instructions to register your hood's warranty. This can also be set up later by tapping Support in the app.

NOTE:

You will create a Zephyr Online Store account during this process which is separate from the Zephyr Connect account.

Here are some commands you can give Alexa:

Turn hood on to last setting or turn it off:

Alexa, turn [On, Off] Zephyr.

Set a specific fan speed:

Alexa, set Zephyr Fan Speed to [1-6].

Set a specific light level:

Alexa, set Zephyr Light to [1-3].

Start/Stop Automatic Delay-Off Timer:

Alexa, [Start,Stop] Zephyr Delay Off Timer.

NOTE:

You can rename your Zephyr hood in the Amazon Alexa app.

6 Google Home

Here are some commands you can give Google Home:

Turn hood on to last setting or turn it off:
Hey Google, turn [On, Off] Zephyr power.

Set a specific fan speed:
Hey Google, set Zephyr to Speed [1-6].

Set a specific light level:
Hey Google, set Zephyr Light to [1-3].

Start/Stop Automatic Delay-Off Timer:
Hey Google, set Zephyr delay timer to [1-10] minutes.
Hey Google, cancel the Zephyr timer.

NOTE:

You can rename your Zephyr hood in the Google Home app.

Troubleshooting

Q: How many accounts can I use to control my range hood?

A: Only one range hood can be bound to an account. However, you can log into multiple devices using the same Zephyr Connect account.

Q: My device is not pairing via Bluetooth to the range hood.

A1: On your mobile device, make sure Bluetooth is turned on.

A2: Make sure Bluetooth pairing mode is enabled on the hood.

A3: Make sure the correct pairing code is used, if prompted; 123456.

A4: In your phone's Bluetooth settings, forget or delete any "Zephyr" devices and try again.

Q: The range hood will not connect to WiFi. Note: When your range hood is connected to WiFi, you will see the WiFi icon illuminated on the range hood controls.

A1: Make sure your mobile device is connected to the same WiFi network you are trying to connect your range hood to.

A2: Make sure you are connecting to a 2.4 GHz WiFi network.

A3: Make sure your range hood is within range of your WiFi network.
