Shade: White Shantung/Rayon

Shade Dimensions: 12" x 9"h

The Anton Table Lamp is made of lustrous optic crystal contrasted by metal accents in an antique brass finish. This includes the round base that beautifully supports a hexagonal swell and a thin ring of metal that cinches the geometric accent at the bottom of a thin stem, which narrows as it reaches the knife-pleated shade. A brilliant optic crystal finial attaches it to the clear lamp.
