Type: Bookcases

Category: Home Office

Collection: Accents April 2021

Number of Shelves: 3

Number of Drawers: 0

Style: Modern/Contemporary

Finish: Whites/Creams/Beiges

Brand: PFC

Product Description: Our Sliding Door Bookcase brings energy, style, and functionality to any space with its classic two-tone finish. The clean-lined silhouette comes in a white finish with four window panel style sliding glass doors over each shelf in a contrasting black finish. These doors slide smoothly to the side, providing easy access to the items stored on the shelves while protecting the contents from dust and creating an elegant display. This bookcase offers a chic and functional addition to any home.

Collection Features: Our exquisite door bookcases offer contemporary sleek designs and functionality, making them an ideal choice for any room. Glass doors help keep items dust-free and out of sight, maintaining a clean and organized look. Each bookcase is carefully designed to integrate seamlessly into any décor, providing a sophisticated storage solution that elevates the overall ambiance of the space.

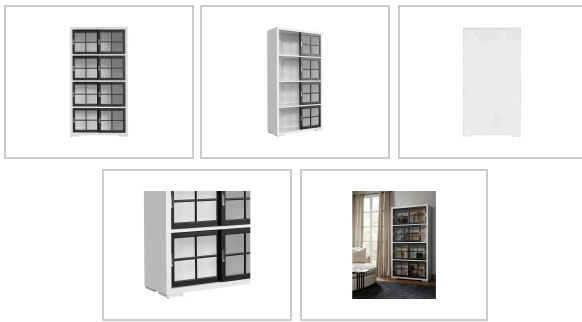

Status: Active

Finish: The white finished case provides a striking contrast to the sliding doors finished in black, enhancing the overall visual appeal

Features: Dual finishes and contemporary design add a unique and attractive focal point to any room
Four individual sections, each with its own set of sliding glass doors and a single shelf, offer versatile storage and display solutions
A defined grid pattern on the doors creates a refined appearance reminiscent of a traditional window design

Material: Birch Wood Veneers

Frame Construction: Pulaski uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.

Width: 42.01" (106.7 cm)
